Pulp and Paper

Wood Processing

Wood processing plants and equipment

- // Turnkey woodyards
- // LogPorter™ portal cranes
- // PowerFeed™ drum infeed conveyors
- // De-icing conveyors
- // Slasher decks
- // Debarking drums
- // Drum - chipper process lines
- // HHQ-Chipper™ and other disc chippers
- // Breakage chippers

Chip and bark processing plants and equipment

- // JetScreen™
- // Chip screens
- // HQ-Sizer™ for oversize management
- // Rechipppers
- // Bark shredders
- // Bark presses

Conveying, stacking and reclaiming systems for chip and bark

- // Screw reclaimers like PowerScrew™, CenterScrew™, ParaScrew™, and CantiScrew™
- // Help™ pre-steaming bins and dischargers

Groundwood processing plants and equipment

- // Automatic grinder charging systems
- // LogScan™ log-sorting system

Automation systems for woodyards

- // DrumMatic™ for debarking process optimization
- // LogScan™ for automatic log sorting
- // BarkScan™ for wood-loss measurement
- // WoodScan™ for debarking degree measurement

Kraft Mill Systems

Fiberline systems

- // Cooking
- // Washing
- // Knot separation and screening
- // Oxygen delignification
- // Bleaching
- // Bleached pulp screening

Chemical recovery systems

- // Black liquor evaporation
- // Effluent evaporation
- // Condensate stripping
- // Heat recovery
- // Chemical recovery boilers

Cooking liquor chemical preparation

- // Reausticizing
- // White liquor oxidation
- // Lime reburning

Mechanical Pulping Systems

Refiner systems

- // Complete mechanical pulping systems from chip washer to final bleached pulp, including refining, screening, cleaning, dewatering and heat recovery systems
- // Refiners for high, medium, and low-consistency systems
- // Complete panelboard (HDF, MDF) refining systems
- // Control, simulation and training systems for all types of refiners and refiner systems

Pulp washing and bleaching systems

- // Medium and high-consistency bleach plants for mechanical pulp and annual fibers
- // Bleaching stages based on peroxide, oxygen, ozone and dithionite
- // Wash presses
- // Medium and high-consistency mixers
- // Medium and high-consistency tower feed and discharge systems
- // Medium-consistency pumps

Dewatering systems

- // Twin wire presses
- // Screw presses

Wet-end systems for market pulp

- // Dewatering systems for sheet and flash drying
- // Heavy duty presses, shoe presses
- // Web cross cutters and layboys
- // Bale transport and finishing lines

Fiber Preparation**Paper machine approach systems**

- // Screening
- // Cleaning
- // De-aeration
- // Closed loops
- // White water treatment
- // Filler recovery
- // Broke handling

Recycled fiber systems

- // Pulping systems including
FibreFlow® drum pulping
- // Screening
- // Cleaning
- // De-inking
- // Dispersing
- // Bleaching

Dewatering systems

- // Disc filters and disc thickeners (Hydrodisk)
- // Twin wire presses
- // Screw presses
- // Gravity tables with PolyScan flocculant optimisation system
- // Screw presses and belt presses for sludge dewatering

Tissue Machines (Voith Paper design)

- // Greenfield systems and modernizations
- // Crescent formers, S-Wrap and C-Wrap twin wire formers for single-ply or multi-layer sheet formation
- // Through-air dryers, TissueFlex™ shoe presses

Ventilation and Drying Equipment

- // High-efficiency Yankee dryer hoods
- // Hall ventilation systems
- // Paper and board machine ventilation systems
- // Impingement dryers for paper and board machines
- // Web stabilizers and steam blow boxes
- // Dust extraction systems

Pulp & Paper Mill Services**// OPE™ agreements (Overall Production Efficiency)**

- C Level:** Inspections, special maintenance, shutdown maintenance
- B Level:** C Level + continuous remote process and condition monitoring, responsibility for availability
- A Level:** C + B Levels + maintenance, complete responsibility for Overall Production Efficiency

// Upgrades

- Modernization of old equipment for improved reliability and efficiency

// Rebuilds

- Reconditioning of wearing equipment
- Own service shops in Finland and USA
- Trained partner service shops in Portugal, South Africa, Brazil, Indonesia and New Zealand

// Spare part services

- Spare parts, wear parts
- Inventory management

// Field services

- 24-hour emergency help
- Troubleshooting, optimization
- Operator and maintenance training
- Inspections and audits
- Shutdown planning, coordination and work

Rolling Mills and Strip Processing Lines

Equipment for the steel, stainless steel, non-ferrous metals and aluminium industry

Rolling mills

- ▄ Turnkey cold rolling mills
- ▄ Two-high, four-high, combined mills and 5-high mills
- ▄ 6, 12, 20-high rolling mills
- ▄ Skin-pass mills
- ▄ Roll adjustment and strip thickness regulation systems
- ▄ Flatness measuring and adjustment systems

Strip Processing Lines

- ▄ Push pickling lines
- ▄ Continuous pickling lines for carbon steel
- ▄ Annealing and pickling lines
 - for hot-rolled stainless steel strip
 - for cold-rolled stainless steel strip
 - for hot and cold-rolled stainless steel strip
 - with electrolytic or acid pickling (horizontal or vertical design)
 - with horizontal furnaces
- ▄ Degreasing plants
- ▄ Electrolytic galvanizing lines (Gravitel)
- ▄ Electrolytic tinning lines
- ▄ Hot-dip galvanizing systems
- ▄ Carbon-steel coating lines
- ▄ Combined aluminium annealing and coating lines
- ▄ Stainless steel bright annealing lines with vertical muffle furnaces
- ▄ Grinding, sandblasting, polishing and customized surface treatment systems

Finishing Systems

- ▄ Slitting lines
- ▄ Cut-to-length lines
- ▄ Packing lines for narrow and wide coils and for plates
- ▄ Large levelling machines and precision levelling machines

Regeneration and oxide plants

- ▄ Plants for regeneration of waste acid and rinse water from pickling carbon steel (hydrochloric acid) and stainless steel (PYROMARS mixed acid process)
- ▄ Plants for producing high-purity magnesium oxide

Annealing furnaces

- ▄ Vertical furnaces (including muffle furnaces)
- ▄ Horizontal furnaces

Turnkey systems for producing

- ▄ Foils for screen masks
- ▄ Thermostatic bimetals
- ▄ Razor blade strip
- ▄ Special material for the electronics industry
- ▄ Stainless steel strip

Environment and Process Technologies

Water Treatment

- // Sand filtration systems

Waste Water Treatment

- // Raked and perforated plate screens
- // Static and rotary screens and sieves

Sludge thickening

- // Belt thickeners
- // Drum thickeners
- // Decanter centrifuges

Sludge dewatering

- // Belt filter presses
- // High-performance decanter centrifuges
- // FlocSave flocculent preparation system

Sludge drying

- // Drum drying plants
- // Fluidized bed drying plants

Thermal sludge utilization

- // EcoDry granulate burning plant

Industrial solid/liquid separation

- // Hyperbaric pressure filters
- // Vacuum filters
- // Belt filter presses
- // Decanter centrifuges
- // Screen centrifuges

Feed Technology

Raw material size reduction

- // Hammermills
- // Disc mill refiners
- // Roller mills
- // Crumblers

Mixing of feed ingredients

- // Horizontal ribbon mixers
- // Horizontal paddle mixers
- // Vertical mixers

Weighing and metering

- // Hopper scales
- // Loss-in-weight weighing systems
- // Micro Ingredients weighers
- // Belt weighers
- // Liquid dosing equipment

Conditioning and expanding

- // Single-shaft conditioners
- // Twin-shaft conditioners
- // Thermal feed expanders

Pelleting

- // Pellet mills, gear driven
- // Pellet mills, belt driven

Extrusion

- // Single-screw extruders

Drying and cooling of pellets

- // Horizontal belt dryers
- // Horizontal belt coolers
- // Counter-flow coolers

Coating of pellets

- // Drum coaters
- // Vacuum coaters
- // Micro fluid systems

Dust separation filters

- // Filters for conveyor aspiration
- // Rectangular free standing filters
- // Modularly built filters
- // Cylindrical free standing filters
- // Intake hopper filters

Material separation and cleaning

- // Roto-shaker screeners
- // Rotary feed dressers

Conveying equipment

- // Chain conveyors
- // Bucket elevators
- // Screw conveyors
- // Rotary valves

Process controls

- // Pellet mill/Feed expander controls
- // Extruder controls
- // Dryer/Cooler controls
- // Hammermill controls
- // Weight controls

Wear and spare parts

- // Pellet mill dies and rolls
- // Expander and extruder screws
- // Extruder dies and barrels
- // Hammermill screens and hammers

Hydraulic Machines

Water turbines

- // Kaplan turbines
- // Francis turbines
- // Pelton turbines
- // Storage pumps
- // Shut-off devices
- // Compact turbines
- // Turbine governors

Large-scale pumps

- // Axial-flow pumps
- // Mixed-flow pumps
- // Volute casing pumps
- // Pumping stations

Centrifugal pumps

- // Stock pumps
- // Medium-consistency pumps
- // Fan pumps
- // Pumps for flue-gas desulfurization systems

Reactor pumps

- // Main-coolant pumps
- // Secondary-loop pumps
- // Components for handling fuel elements

Space technology

- // Components for launcher rockets
