A passion for cooperation and results

ANDRITZ OPE[®] agreements

A passion for cooperation and results

ANDRITZ is passionate about helping you take your pulp, paper, and power production equipment to new levels of performance — raising your Overall Production Efficiency (OPE[®])*.

We work closely with your operations and maintenance experts, and local partners, to apply the most modern maintenance technologies and tools for achieving the best results. Our OPE[®] team has access to the best global experts. When needed, online diagnostics enables an expert to advise and troubleshoot anywhere in the world. Our approach is to review all your equipment and processes — and then help develop a maintenance plan to improve your overall production and equipment efficiency. ANDRITZ is by your side with years of experience and proven results.

Benefits

- Increased efficiency of mill operations
- Highest possible equipment availability
- Optimized production and maintenance costs
- Expert advice from a strategic technology and maintenance partner
- Value-added transfer of knowledge
- Access to expert technical assistance

* OPE is a trademark of ANDRITZ registered in countries including the United States and the European Union
