

**PULP & PAPER**

# **ModuScreen HBE**

**EFFICIENT AND PULSATION-FREE  
HEADBOX SCREENING**

The ModuScreen HBE is part of the highly successful ModuScreen family of ANDRITZ pressure screens and is designed to meet the most stringent requirements for paper stock quality and operating performance. The

proven and successful inflow design of the screen, combined with the correct application of slotted or perforated screen cylinders, can be applied to any machine for paper or board manufacturing. Many world-

class paper machines producing the highest quality paper grades rely upon ANDRITZ headbox screens. This includes main line machine screening as well as dilution headbox screens.

**ANDRITZ**

**ENGINEERED SUCCESS**

# For superior paper machine performance

## BENEFITS:

- Low energy consumption with inflow screening
- Very low pulsation thanks to unique accept chamber design
- No deposits due to polished surfaces – easy to drain and wash
- High screening efficiency with low reject rates
- Modular design
- Easy to operate and maintain

The ModuScreen HBE screen proves ANDRITZ's vast experience in screening systems for stock preparation lines processing all types of furnishes and ensures efficient, pulsation-free screening immediately before the paper machine.

The headbox screen is available in 12 sizes, featuring installed power up to 160 kW.
