

FEED AND BIOFUEL CRUMBLER

TYPE GM

ANDRITZ

ANDRITZ manufactures and offers a complete range of high-quality, high-capacity crumblers for crumbling animal feed pellets of all kinds, with a capacity extending from five tons/hour up to 40 tons/hour.

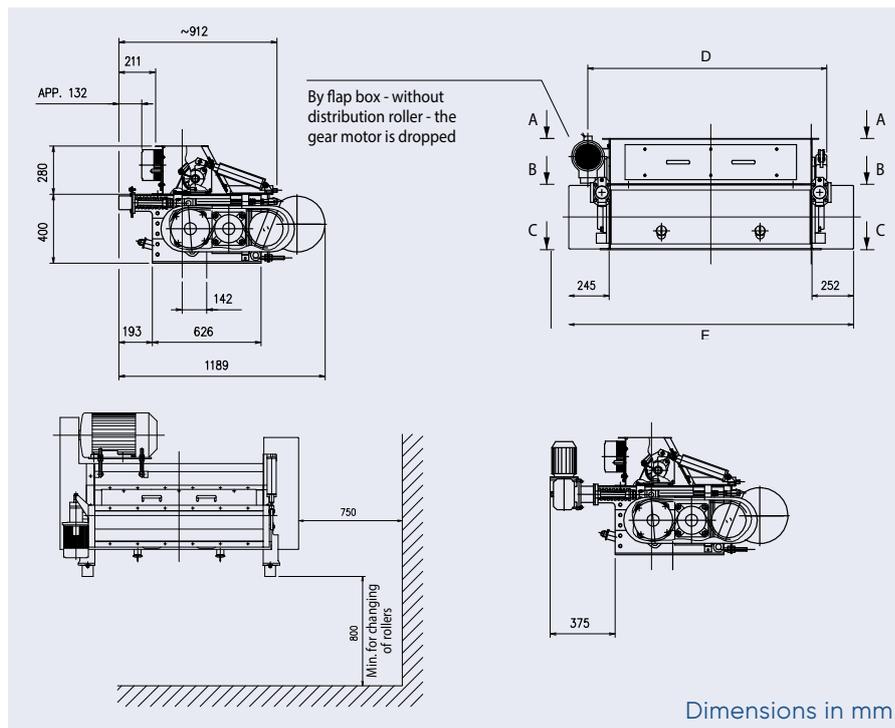

The ANDRITZ advanced feeding system provides precise, uniform feeding over the full length of the rolls, securing perfect performance, longest lifetime, and lowest energy consumption. ANDRITZ testing tools

included with your new crumbler allow sample-taking during operation to ensure that you have the perfect product.

ANDRITZ

ENGINEERED SUCCESS

All models allow installation of the ANDRITZ automatic roll adjustment system and are, of course, controlled by the ANDRITZ advanced automation control system, which also provides individual settings for the crumbling process in order to obtain the perfect individual product. All features can also be added easily at a later date.

TECHNICAL DATA

Type	Motor	Roller diameter	Roller length	Velocity V-belt drive	Roller adjustment	Option	Capacity Danish chicken feed	Distribution roller	Flap box (option)	Total weight
