

ModuScreen CR

Recycled Fiber Coarse Screening

ModuScreen CR

Screening and cleaning in one unit

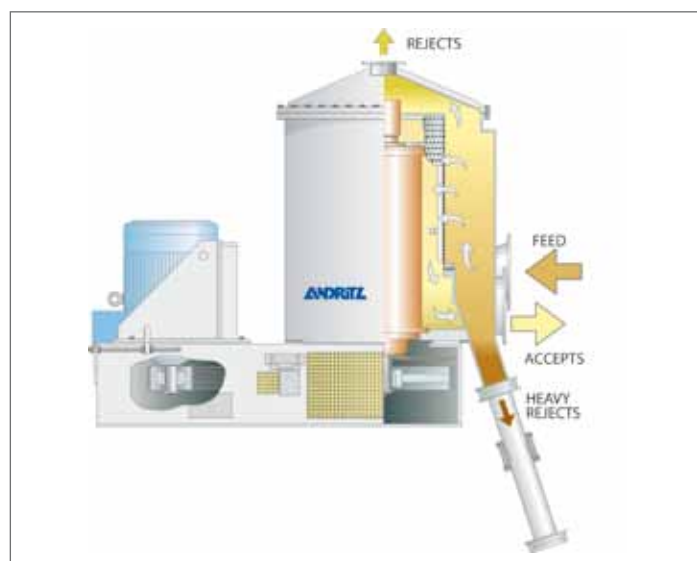

The ANDRITZ ModuScreen CR screen is a good solution for heavy particle removal from recycled fiber furnish. The screen design combines the benefits of HD cleaners and conventional coarse screening in one unit.

Typically, the ModuScreen CR is applied in recycled fiber lines, but it also has several other applications in papermaking. Its unique rotating screen cylinder has enabled the ModuScreen CR to be the best technical solution for coarse screening to-day.

Benefits

- **Low maintenance costs**
- **Low energy consumption**
- **Gentle screening process**
- **100% large impurities removal efficiency**
- **Continuous, automatic operation**
- **Simple process control**
- **Efficient fiber/reject separation – minimum fiber losses**
