ENGINEERED SUCCESS

# High-quality filter cloths to increase your filter press productivity up to 20%

One of the more important variables to increasing the performance of your filter press is using high-quality filter cloths, selected especially for your machine and production needs.

Since 1995, ANDRITZ has been producing its own filter cloths and has been working consistently on their development, design, and manufacturing processes. Laser cutting plants and sealed seams – if necessary – are considered state of the art nowadays. The combination of highest quality fabrics, newest manufacturing technology, and field/laboratory testing guarantees you to get the right filter cloths for best performance.

## APPLICATION

ANDRITZ high-quality filter cloths in various materials, finishes, and sizes (ranging from 250 x 250 mm up to 3,000 x 3,000 mm) are successfully installed in more than 14,000 filter presses of all models and makes. The installed filter cloths yield best results in the mining and minerals, environment, food, and chemical industries.

## YOUR BENEFITS

- Up to 20% longer service life and more solid content in the cake
- Easy cake release due to super smooth surface finish on the cloth
- 150 years of experience in solid/liquid separation processes guarantees you to get the right filter cloths for your specific application and needs

# The next generation of high performance filter cloth

ANDRITZ filter cloth GO+, the new filter fabric, offers outstanding benefits, such as enhanced tensile strength for superior quality and extended lifetime, higher abrasion resistance, improved cake release, and increased filtration process efficiency.

## YOUR BENEFITS

- Higher tensile strength
- Maximum filtration efficiency with higher throughput and lower cake moisture
- Increased abrasion resistance
- Easy cake release due to smooth cloth surface
