

How to connect to Andritz Group Citrix environment

Andritz Group Citrix environment is reachable via:

<https://gate.andritz.com>

How to get the Citrix Client software installed on your device

Citrix Client Software has to be installed on your client Computer- the **Citrix Receiver**.

The download and installation process will be offered after the login at <https://gate.andritz.com>

More detailed information see this link: [Installation of the citrix receiver](#)

How to request a Andritz group Citrix application or desktop:

For the access to the Andritz Citrix Systems a Andritz Domain User is needed.

Username and password for the Andritz Domain will be provided by your **Andritz internal contact person**.

The **Andritz internal contact person** should also be contacted in case of other requests or problems.
