ANDRITZ to supply an FRX shredder to Stora Enso, Poland

Graz, December 22, 2017. International technology Group ANDRITZ has received an order from Stora Enso Narew Sp. z.o.o., Poland, to supply an FRX shredder and a metal separator to the mill in Ostrołęka, Poland. The FRX shredder, which is part of the ANDRITZ Franssons product line, will process rejects from the pulping processes of two existing board production lines. Start-up of the new shredder, which will process around 60 tons of rejects per day, is scheduled for January 2018.

The well-proven shredder, size FRX2000, features powerful pre-shredding of a broad range of raw materials. Its innovative CoverCross knife system and pusher technology guarantee consistent quality and high throughput. The shredder will be installed upstream of the reject treatment system, which is part of the 455,000 tons per year board production line for which ANDRITZ also delivered the complete OCC line including reject treatment.

Stora Enso Narew Sp. z.o.o., headquartered in Ostrołęka, 120 kilometers northeast of Warsaw, operates in the pulp and paper industry. Its core products are industrial papers for corrugated boards and boxes.
