03 OUTLOOK AND FINANCIAL TARGETS

HYDRO: UNCHANGED CHALLENGING MARKET ENVIRONMENT

- **New hydropower plants**
Some new projects in emerging markets, particularly in Asia, Africa and South America, are currently in the planning phase.
- **Pumps**
Good project activity.
- **Modernizations/rehabilitations**
Unchanged, difficult market conditions impacted by low electricity and energy prices, especially in Europe.
- **Competition**
Stable competition at challenging level.

ANDRITZ will supply 27 vertical volute pumps for irrigation of Telangana, India.

UPDATE ON HYDRO CAPACITY ADJUSTMENTS AND STRATEGY

- Target is to increasingly shift resources to China and India to cover and serve growing Asian and Chinese markets locally
- In line with this strategy and based on overall low market activity several capacity adjustment measures have been taken during the last three years
- Reduction of total headcount by approximately 1,000 employees and almost 400 contracted personnel
 - Increase in China and India
 - Reduction in most other countries
- Reduction of direct labour hours by around 10%:
 - Increase India to become by far largest production facility
 - Reduction in other facilities, mainly Sweden, Spain, Switzerland, and Austria
- Additional restructuring highly likely in 2018 to further adjust capacities to market conditions

PULP & PAPER: CONTINUED SOLID MARKET ENVIRONMENT

- **Pulp**
Satisfactory project and investment activity, particularly for modernization of existing pulp mills. Some greenfield pulp mill projects in South America and Asia in evaluation.
- **Paper**
Satisfactory market development for tissue and packaging equipment continued.
- **Competition**
Stable competitive environment.

ANDRITZ successfully started up Fibria's second pulp production line in Três Lagoas.

METALS: UNCHANGED WEAK METALFORMING MARKET

Recovery of Metals processing market

- **Metalforming**
Unchanged low investment activity in metalforming with only a few large orders placed for press lines; favorable development of Yadon continued.
- **Metals processing**
Further increase in project activity - however from very low level - mainly driven by rising steel and commodity prices.
- **Competition**
Stable competition at challenging level.

Schuler offers state-of-the-art presses with new TwinServo Technology.

SEPARATION: IMPROVED PROJECT AND INVESTMENT ACTIVITY

Mainly for solid/liquid separation equipment

- **Municipal**
Investment activity at good levels, mainly in developed markets.
