

SEPARATION

EXTEND THE LIFETIME OF YOUR DECANTER CENTRIFUGE

ANDRITZ GREASE AND OIL PRODUCT LINE

ANDRITZ

ENGINEERED SUCCESS

Extend the lifetime of your decanter centrifuge

As the world's leading separation specialist, our work doesn't end with the delivery of a new machine. In addition to our comprehensive service range and maintenance plans, we know that high-quality consumables such as grease and oil are essential for the smooth operation of decanter centrifuges. That's why, in cooperation with 77 Lubricants®, we have developed the ultimate grease and oil product line for decanters.

DEVELOPING A LUBRICANT FOR MAXIMUM PERFORMANCE

With well over 10,000 decanters installed worldwide for every kind of separation application, we have unique insight into exactly what each decanter centrifuge needs: From dewatering and thickening to clarification and classification to three-phase separation, we have the lubricants to meet every application's needs.

The viscosity and stability of the ANDRITZ oil and grease line makes it the obvious choice for increasing the lifetime of machinery and avoiding costly maintenance and repairs. Inferior products – even if mixed with our lubricants – can not only invalidate warranties, but also undo the time and effort spent on a repair.

RELIABLE QUALITY FOR LONGEST LIFETIME

Whether you already have a high-quality ANDRITZ solution in place or are using equipment from other manufacturers, enhancing performance and reducing maintenance costs are just two of the obvious benefits of our grease and oil line.

YOUR BENEFITS

- Easy and fast greasing thanks to the Speedy Grease® system
- Improved lifetime of your decanter due to the smooth operation that comes from high-quality lubrication and an easy-to-follow lubrication plan
- Meeting the terms of the ANDRITZ warranty requirements
- The peace of mind gained from following the recommendation of one of the world's leading OEMs of decanters

ANDRITZ grease and oil product line

**EVERY APPLICATION NEEDS
A GREAT APPLICATOR**

The best technology and consumables demand the best applicator – and that’s why we have chosen the Speedy Grease® system, a robust grease gun with special cartridges to ensure the easy and precise lubrication of every machine. Compared to common lubrication schedules, which can be complicated and time-consuming, the new grease and oil product line developed by ANDRITZ makes lubrication easy and quick – while still ensuring smooth operation of your decanter centrifuge.

Especially the magnetic grease gun:
There’s no other option for making greasing so easy and secure. What’s more, the replaceable cartridge helps to save time and makes handling very easy. The high-quality Speedy Grease® grease gun is the obvious choice for any application.

High-quality grease gun with magnet for easy greasing

Your full-service provider

With ANDRITZ, you gain access to one of the world’s largest OEM manufacturers for solid/liquid separation systems, including such well-known brands as 3Sys Technologies, Bird, Delkor Capital Equipment (Pty) Ltd., Escher Wyss dryers, Frautech, Guinard Centrifugation, KHD Humboldt Wedag, Krauss-Maffei centrifuges, dryers, and filters, Lenser, Netzsch Filtration, Rittershaus & Blecher, Royal GMF Gouda, Sprout Bauer, and Vandenbroek. Whether you need spare parts, rentals, local service, repairs, upgrades, or modernization of your equipment,

ANDRITZ is your true full-service provider. From initial consulting through to service agreements, process optimization, and training programs, we are always looking for ways to minimize downtime and increase predictability in operations while raising your overall production efficiency. Wherever you operate, our network of 550 service specialists and global service centers ensures we’ll always be there to support you for many life cycles to come. Let’s sit down and see how we could take your operations to the next level.
