

PULP & PAPER

STRATAPRESS™ BY FABRICS AND ROLLS

LAYERS OF INNOVATION FOR
PREMIUM PRESS PERFORMANCE

ANDRITZ

ENGINEERED SUCCESS

The world's most advanced press felt technology for unmatched performance

Innovative StrataPress™* press felts are a comprehensive new portfolio of high-performance technology specially developed to help maximize your machine's press performance. StrataPress is designed with a game-changing combination of materials, base fabric structures and unique batt concepts which deliver the highest sheet quality, faster machine speeds and with reduced energy consumption. The StrataPress portfolio offers both endless and seamed technology to enable your press section to run more efficiently with products specifically engineered for each application on every grade and machine configuration. So whether you are producing tissue, paperboard, printing/writing, newsprint or pulp there's a StrataPress felt to ensure peak performance in your press section.

Uniquely engineered press felts provide a unique suite of benefits for your machine

TISSUE AND TOWEL

StrataPress T
The industry's most advanced portfolio of endless and seam press felts developed for today's modern tissue machines:

- Short break-in and faster start-up
- Reduced energy consumption
- Highest machine speeds
- Excellent sheet quality
- Extended life potential
- Excellent seam integrity, fast installation

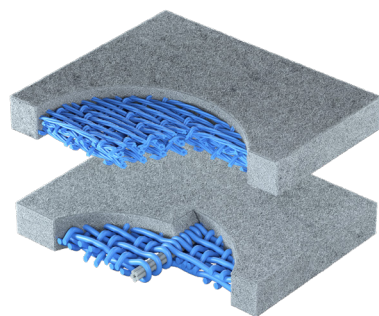

CONTAINERBOARD AND PACKAGING

StrataPress B
Specifically engineered for every conceivable board and packaging press configuration, available in endless and seamed:

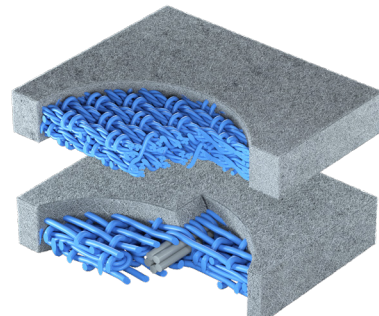

- Superior water handling
- Reduced energy consumption
- Enhanced stability
- Superior compaction resistance
- Longer life potential
- Outstanding seam integrity with fast installation

PRINTING/Writing AND NEWSPRINT PULP DRYING

StrataPress G
The broadest portfolio of high-performance endless and seamed press felt technology for graphical grades:

- Superior sheet quality
- Superior water handling
- Reduced energy consumption
- Enhanced stability
- Longer life potential
- Mark-free seam with rapid installation

StrataPress P
Our premium pulp drying felts are known throughout the world to deliver best-in-class performance, available in endless and seamed:

- Enhanced water handling
- Enhanced stability
- Improved compaction resistance
- Reduced energy consumption
- Longer life potential
- Very strong seam and fast installation

StrataPress™* FELT TECHNOLOGY DELIVERS PREMIUM PERFORMANCE ON ALL GRADES AND PRESS CONFIGURATIONS
