

PRESS RELEASE

ANDRITZ technologies achieve production record at Eldorado Brasil

GRAZ, OCTOBER 17, 2019. The Eldorado Brasil pulp mill in Três Lagoas, Brazil, set an outstanding production record of 5,576 ADmt/d on September 21, 2019, with ANDRITZ technologies. In addition, production has been running for the past 200 consecutive days without a sheet break on the MS2 line.

The mill was started up successfully at the end of 2012 and has achieved several production records since then. Metris OPP, which is part of ANDRITZ's digital solutions, has been supporting Eldorado Brasil to reach these excellent results. ANDRITZ delivered the woodyard, complete fiberline, white liquor plant, and the new generation of pulp drying plants to Eldorado, including two parallel Twin Wire Former pulp machines, two airborne dryers, two cutter-layboys with 6,670 m working width, and four bale finishing lines.

These outstanding results are based on the combination of strong customer and supplier partnership, technology, and excellent planning and implementation.

Eldorado Brasil's greenfield pulp mill achieves annual production of around 1.8 million mt of dried, bleached eucalyptus market pulp.

ANDRITZ GROUP

ANDRITZ is an international technology group providing plants, systems, equipment, and services for various industries. The company is one of the technology and global market leaders in the hydropower business, the pulp and paper industry, the metal working and steel industries, and in solid/liquid separation in the municipal and industrial segments. Other important fields of business are animal feed and biomass pelleting, as well as automation, where ANDRITZ offers a wide range of innovative products and services in the IIoT (Industrial Internet of Things) sector under the brand name of Metris. In addition, the company is active in power generation (steam boiler plants, biomass power plants, recovery boilers, and gasification plants) and environmental technology (flue gas and exhaust gas cleaning plants) and offers equipment for the production of nonwovens, dissolving pulp, and panelboard, as well as recycling plants.

ANDRITZ stands for passion, partnership, perspectives and versatility – core values to which the company is committed. The listed Group is headquartered in Graz, Austria. With almost 170 years of experience, approximately 29,600 employees, and more than 280 locations in over 40 countries worldwide, ANDRITZ is a reliable and competent partner and helps its customers to achieve their corporate and sustainability goals.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper is a leading global supplier of complete plants, systems, equipment, and comprehensive services for the production and processing of all types of pulp, paper, board, and tissue. The technologies cover processing of logs, annual fibers, and waste paper; production of chemical pulp, mechanical pulp, and recycled fibers; recovery and reuse of chemicals; preparation of paper machine furnish; production of paper, board, and tissue; sizing, calendering and coating of paper; as well as treatment of reject materials and sludge. The service offering includes system and machine modernization, rebuilds, spare and wear parts, on-site and workshop services, optimization of process performance, maintenance and automation solutions, as well as machine relocation and second-hand equipment. Biomass, steam and recovery boilers for power production, gasification and flue gas cleaning plants, systems and plants for the production of nonwovens and absorbent hygiene products, dissolving pulp, and panelboard (MDF), as well as recycling and shredding solutions for various waste materials also form a part of this business area.
