

# AGC / HGC cylinder rebuilds and testing

Over the last thirty years, ANDRITZ Herr-Voss Stamco Inc. has manufactured, rebuilt and tested AGC and HGC cylinders for all types of rolling mills for the steel and aluminum industry. Call us today to discuss your specific requirements.

## AGC / HGC cylinder test stand

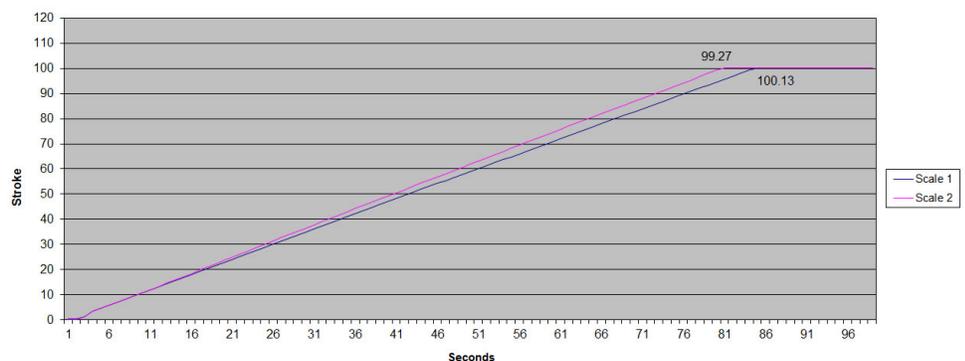

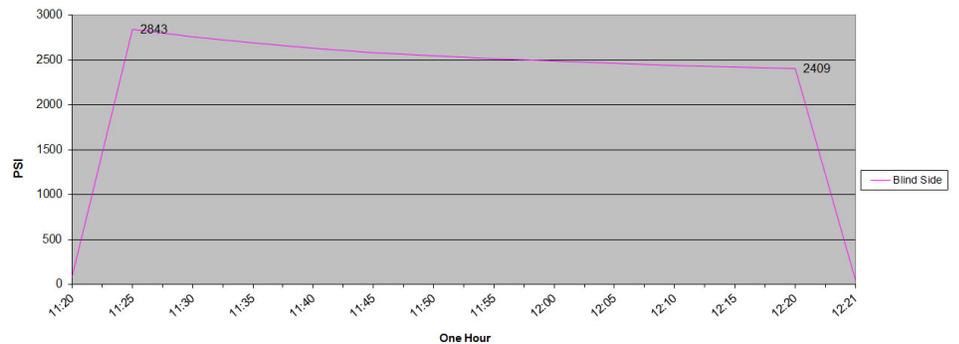

- Equipped with state-of-the-art controls to assure 100% accuracy test results.
- Test will cover oil leakage and hysteresis throughout the cylinder stroke and load range.
- Tests are for all types of AGC and HGC cylinders reconditioned or new.
- Maximum pressure of 10,000 PSI and maximum force of 5,000 tons can be applied.
- On-site engineering support can be provided for the gauge control system.

▲ AGC / HGC Cylinder Test Stand

## The cylinders are:

- Pretested prior to disassembly.
- Cleaned and checked for cracks.
- Tests are according to OEM standards.
- Results are recorded on computer data.
- After testing, cylinders are ready for service.
