

PRESS RELEASE

ANDRITZ Herr-Voss Stamco Inc. successfully starts up cut-to-length line supplied to Coast Aluminum, Kent, WA, USA

GRAZ, MARCH 17, 2020 ANDRITZ Herr-Voss Stamco Inc., a member of international technology Group ANDRITZ, has successfully started up a new state-of-the-art cut-to-length line at Coast Aluminum, for their facility in Kent, WA. The line processes 0.25" x 72" wide stainless steel and aluminum and has an incoming coil capacity of 20,000 lbs.

The backbone of the line is ANDRITZ Herr-Voss Stamco Inc.'s industry-leading precision roller-leveler technology. The line includes a heavy-gauge Precision Leveler® as well as a light-gauge Precision Leveler®, both with the Punch-N-Go® leveler control system. The equipment is designed to meet Coast Aluminum's specific product requirements.

The cut-to-length line includes ANDRITZ Herr-Voss Stamco's proprietary electro-discharge texturing (EDT) precision roll feed system, coupled with a high-speed shear that can cut both long and short blanks with high efficiency and extreme accuracy. The line also allows for the application of paper or vinyl to the leveled material.

ANDRITZ Herr-Voss Stamco Inc., based in Callery, PA, USA, is a globally leading supplier of coil processing services and solutions, including field service, rebuild and retrofit, tension leveling, the pit-less Strand Extensioner® slitting line, high-strength slitting technology, HS²T® slitting lines, cut-to-length, multi-blanking, and precision roller leveling equipment.

ANDRITZ GROUP

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems and services for the pulp and paper industry, the hydropower sector, the metals processing and forming industry, pumps, solid/liquid separation in the municipal and industrial sectors, as well as animal feed and biomass pelleting. The global product and service portfolio is rounded off with plants for power generation, recycling, the production of nonwovens and panelboard, as well as automation and digital solutions offered under the brand name of Metris. The publicly listed group today has around 29,500 employees and more than 280 locations in over 40 countries.

ANDRITZ METALS

ANDRITZ Metals is – via the Schuler Group – one of the world's leading suppliers of technologies, plants and digital solutions in sheet metal forming. The product portfolio also includes automation and software solutions, dies, process know-how and service. In the metals processing segment, the business area provides innovative and market-leading solutions for production and processing of flat products, for welding systems, as well as furnaces and services for the metals industry.
