

ANDRITZ Universal Cross-Flow Shredder Bio-QZ900

Second-hand machine

Versatile, effective, and robust in substrate treatment

The well-proven Universal Cross-Flow Shredder Bio-QZ is capable of processing different materials, such as packaged food, organic waste, or energy crops, and preparing them ideally for the fermentation process in biogas plants.

Flexible tools inside the machine produce a homogeneous substrate that has a positive effect on many important factors in a biogas facility. Ease of maintenance is a hallmark of the machine design. Besides the large service door, the Bio-QZ allows easy access to the discharge, belt, and belt pulleys.

Machine data

Machine type:	Bio-QZ900
Year built:	2014
Condition:	Slightly used
Tools:	Rotating chains
Chamber diameter:	900 mm
Drive power:	75 kW, 50 Hz, 400 V
Color:	RAL 6018/5010
Machine ID:	M-1095

Standard equipment

- Approx. 5 m cabling
- Central, manual lubrication system
- Control cabinet incl. electrical control unit
- Documentation in German
- Discharge hood made of stainless steel
- Hydraulic unit 4 kW
- Screw-on inner wall wear plates made of HARDOX
- Floor wear plates made of steel

Subject to prior sale!
Sold as seen – without guarantee.
