

ANDRITZ IN FINLAND

FORERUNNER OF INNOVATIVE TECHNOLOGIES

ANDRITZ

ENGINEERED SUCCESS

ANDRITZ in Finland – passion for innovation

ANDRITZ Oy is a leading global supplier of systems, equipment and services for the pulp and paper industry, including wood processing, fiber processing, chemical recovery, and stock preparation. In addition, ANDRITZ Oy offers biomass boilers and gasification plants for energy production.

ANDRITZ Oy has four subsidiaries: ANDRITZ Hydro Oy, located in Tampere, delivers systems, equipment, and services for hydraulic power generation. ANDRITZ Fabrics and Rolls Oy located in Kerava, delivers world leading roll technology and Rubber Blanket for Extensible Paper. ANDRITZ Savonlinna Works Oy is a manufacturing facility where key components, as well as spare and wear parts for ANDRITZ equipment and systems are produced and assembled. ANDRITZ Warkaus Works Oy is an engineering company based in Warkaus, manufacturing pressure-bearing components for recovery boilers and power plant boilers for industrial applications.

PASSION FOR INNOVATION

ANDRITZ's continuous research and development activities focus on supporting customers to achieve sustainable production with higher capacities as well as higher energy efficiency and at the same time minimizing the consumption of energy, chemicals, and water. New technologies concentrate on the by-products of pulp production and on creating green energy.

ANDRITZ runs own research facilities and pilot plants, where performance tests and analyses of different product characteristics are carried out and processes are continuously developed. Further, the international product homes are additionally working with R&D institutes and universities and connect science with in depth field experience.

FORSEE DIGITALLY – ANDRITZ SOLUTIONS

Digitalization is a driver for growth at ANDRITZ in Finland, and it continuously offers new business opportunities. We help our customers to make use of opportunities and competitive advantages by means of our latest technologies. As a result, significant improvements are achieved in the reliability and performance of the customers' equipment, systems, and processes.

How does ANDRITZ integrate the exciting new possibilities that come with Industry 4.0? As a technology leader with extensive and longterm experience in supplying industrial measurement, control, and optimization solutions for various industries, ANDRITZ is combining its process and equipment expertise with the latest advancements in the digital era. The result of this powerful combination is Metris: a portfolio of ANDRITZ Digital Solutions.

ANDRITZ OY

Helsinki Center of Excellence

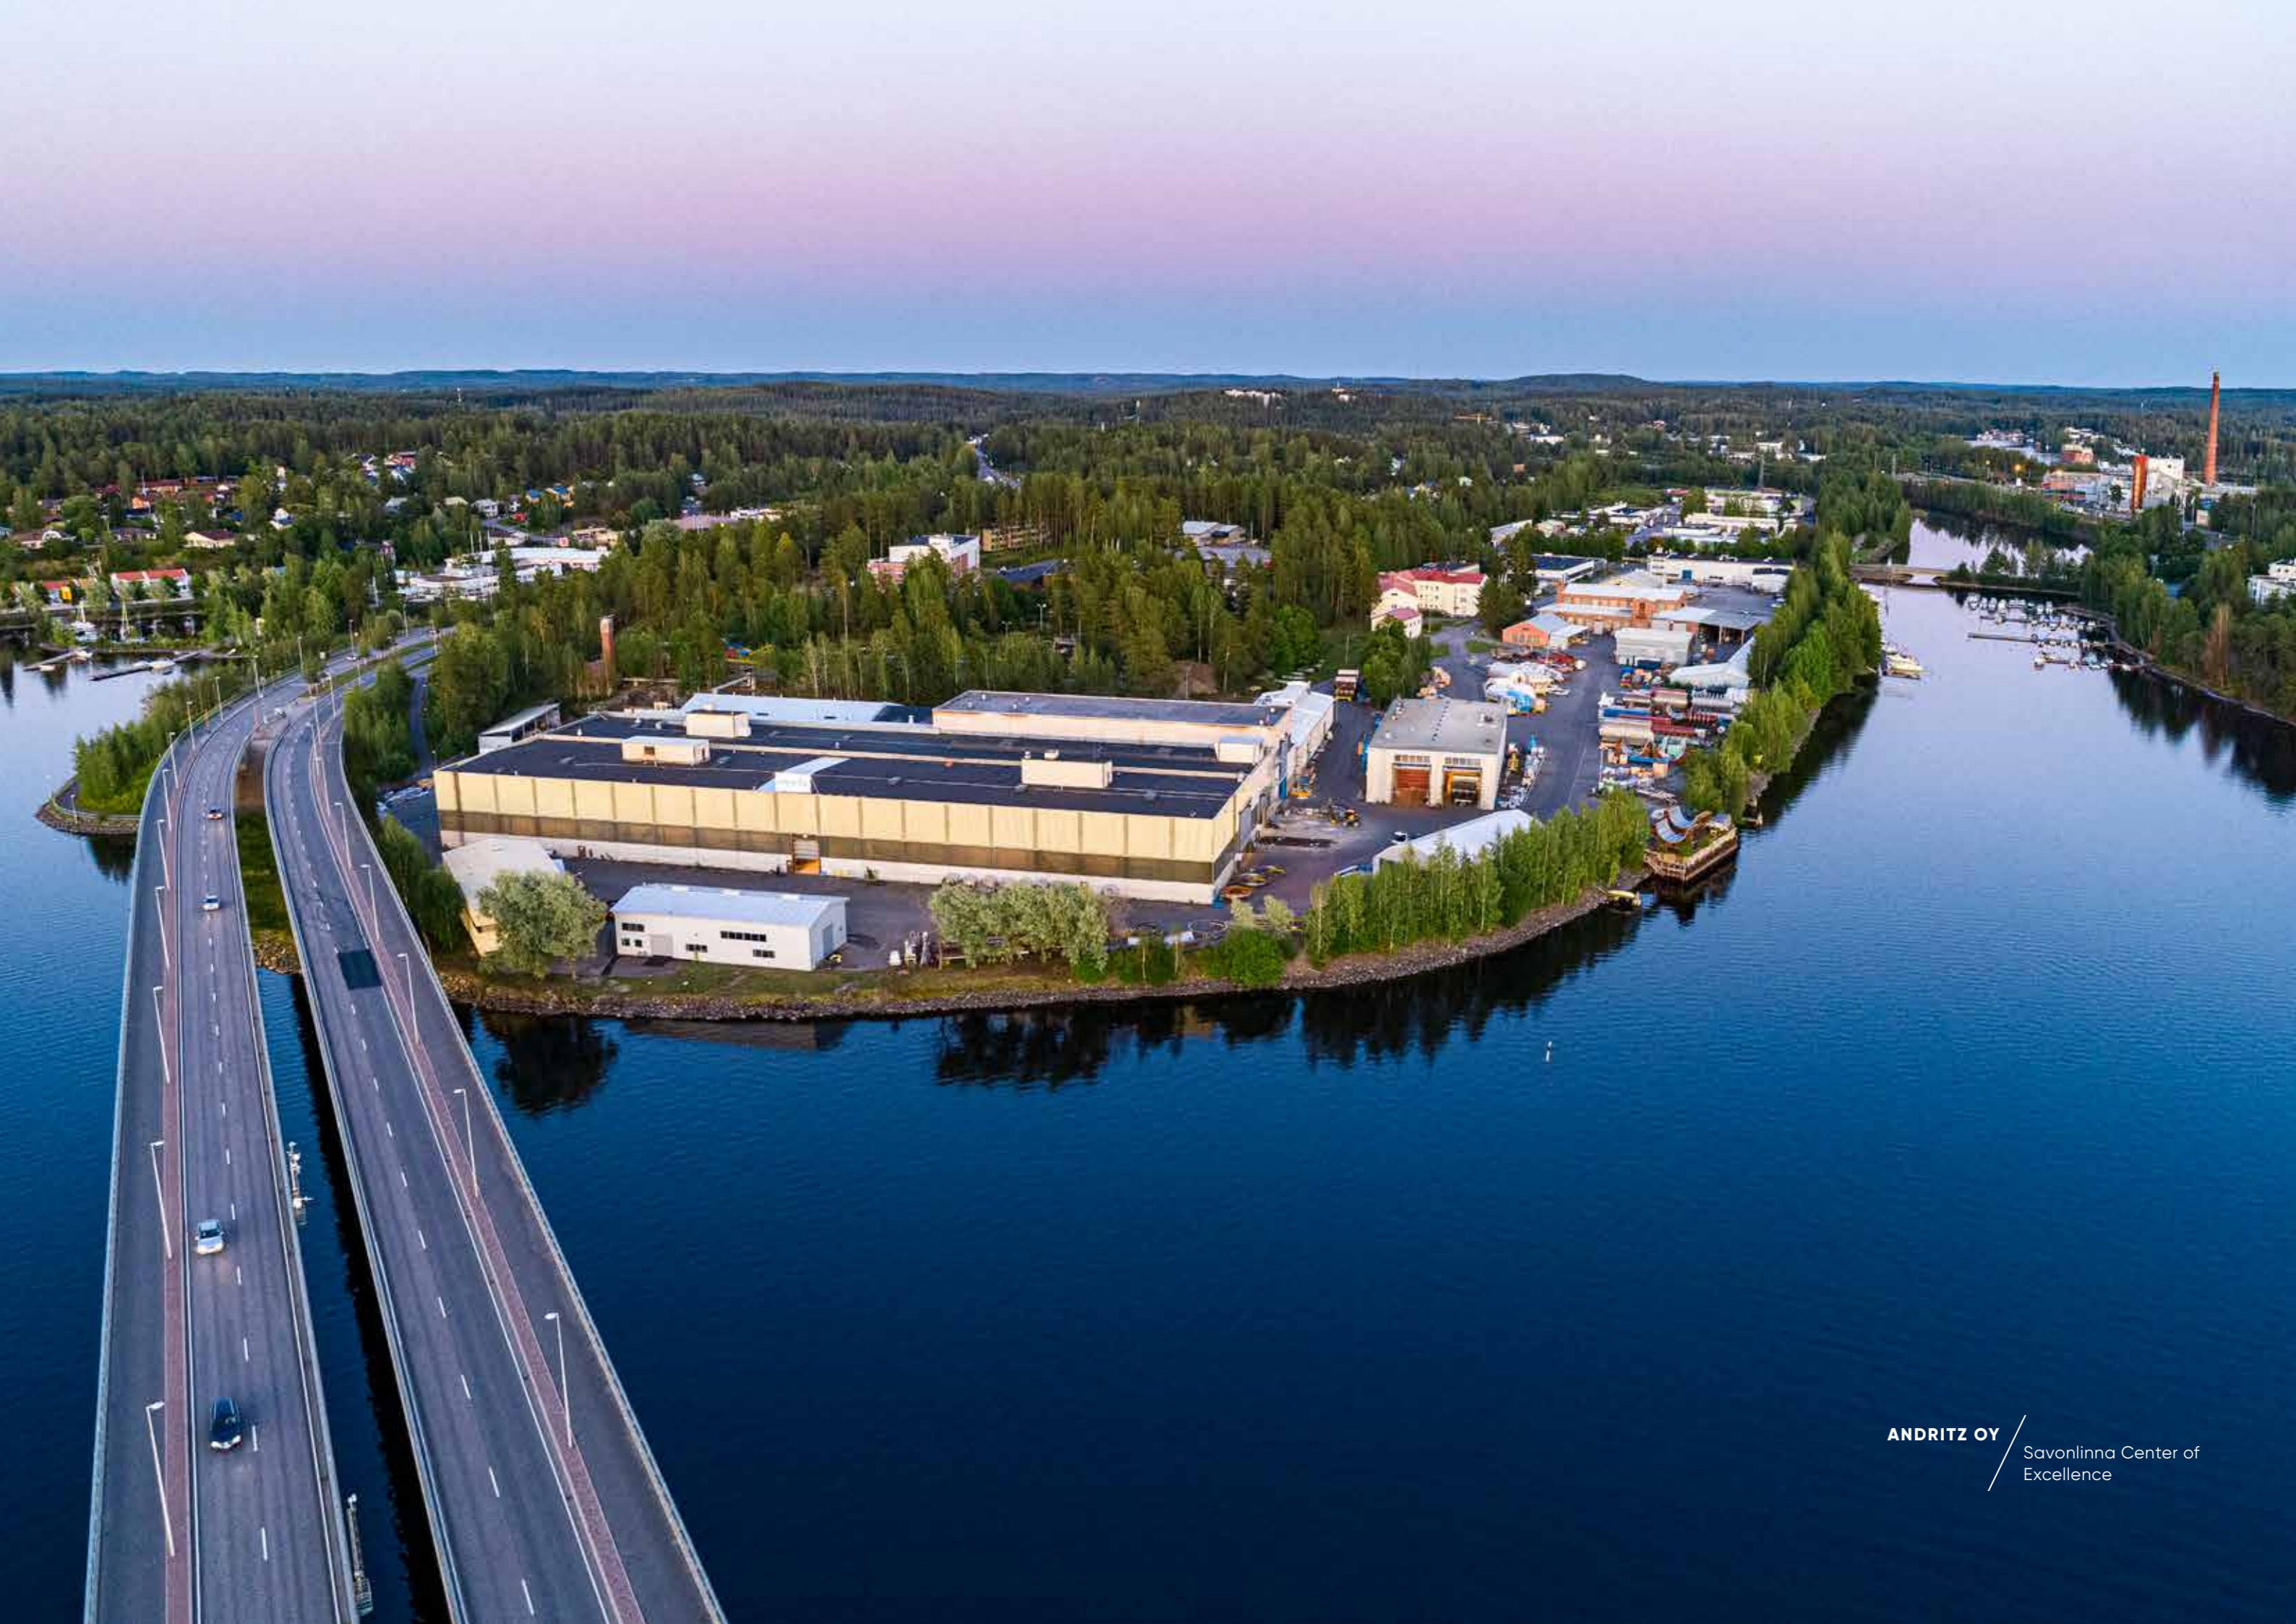

Company owned production facilities as drivers for development

ANDRITZ Savonlinna Works Oy, located in Savonlinna, Finland, supplies equipment and machinery for the pulp and paper industry worldwide. For example, the workshop manufactures pulp washers, drum filters, disc filters, cooking equipment, pressure vessels, and spare parts for this equipment. In addition, the company provides repairs, modernization work, and installation, maintenance and shutdown services globally.

ANDRITZ Warkaus Works Oy is a workshop in Varkaus, Finland producing the most demanding pressure-bearing components for chemical recovery boilers and power boilers for industrial applications. The company provides products and services globally for new facilities, and rebuild and modernization projects according to customer quality and safety requirements.

A portrait of Kari Tuominen, President and CEO of Andritz Oy. He is a middle-aged man with short brown hair, wearing a dark blue suit jacket, a white shirt, and a blue patterned tie. He is looking directly at the camera with a slight smile. The background is a blurred view of a city or industrial area through a window.

Passion and innovation are the cornerstones of our customer-oriented technology company

"Our customers' modern pulp and paper mills are like smart cities where passionate and innovative engineering, project management, and technology professionals are needed. Our professional networks and resources are available, not only in Finland but also globally."

KARI TUOMINEN

ANDRITZ Oy

EAGLE

ANDRITZ

Values guide our actions

ANDRITZ values create a common ground for us, regardless of the position, location or background of an employee. These values guide our decision making, how we act, and what is important to us. Our values are evident in our behavior every day.

PASSION

We love what we do. Our ability to get the best out of ourselves and our technology is what makes us stand out. Times and technologies change, but our passion is always there.

PERSPECTIVES

ANDRITZ is constantly creating new perspectives for the company, ourselves, and our customers. Based on an intrinsic power of innovation and entrepreneurial spirit, we explore and find new paths and promising technologies and solutions for the future, and we build and live sustainable partnerships every day.

PARTNERSHIP

Reliability, integrity, and respect are the fundamentals of our basic philosophy as partners. With our special form of traditional pragmatism, we are always approachable, genuine, and at eye level with all stakeholders. We call it the "ANDRITZ partnership".

VERSATILITY

We are willing and able to take on new and often spontaneous challenges and to deal with them flexibly and creatively. This versatility helps us to achieve our goals and enables us to accept challenges – for our customers and ourselves.

OUR SUCCESS STARTS WITH YOU

ENGINEERED SUCCESS. Behind our claim is a group of professional ANDRITZ employees. We believe that the motivation and expertise of all our employees are the key factors to our success. The more skilled our employees are, the more qualified, safe, and technologically advanced services we are able to provide.

The company's targets and culture make ANDRITZ Oy a place where a passionate expert can grow and develop as a part of the global technology group. Our competitiveness is based on utilization and networking of the broad knowledge provided by our colleagues globally to always find a better solution.

A significant part of our success as an employer is to take care of our employees' well-being. At ANDRITZ Oy, you work in an environment where your work and well-being are respected and supported. We care for our employees – they are our biggest asset.

Our aim is to be a safety leader in our industry

Risk management and safety are top priorities for us. SAFETY FIRST - the global safety initiative is part of a strategy to establish a sustainable safety culture based on prevention and a high level of safety awareness throughout the Group. Its aim is to prevent unsafe actions from the outset and make workplaces and processes safe.

Our customers benefit from the safety features of our systems, equipment, and services because they become more competitive. We want our employees and other persons working with us to return home healthy at the end of the working day. Every accident that happens is one too many, and our ultimate goal is always to operate completely accident-free.

ANDRITZ IS COMMITTED

Zero accidents

Safety at work

Prevention of personal injuries

Prevention of environmental impact

No damage to mill or equipment

ANDRITZ OY

Varkaus Center of Excellence

We provide competitive and sustainable solutions with a positive influence on our planet

LEADING TECHNOLOGIES

ANDRITZ provides technologies with engineering, innovative systems, equipment and services. This also moves our sustainability targets forward. Our business is growing while demands for effectiveness increase, life-cycle solutions become more common, and production rates in the pulp and paper industry grow.

WE ACT AS A ROLE MODEL FOR THE INDUSTRY

As one of the largest companies on the market, it is our responsibility to show others the way with new solutions enabling the entire industry to develop further. Our goal is to increase the efficiency of the pulp and paper industry together with our customers, thus reducing the environmental impact.

SUSTAINABLE GENERATION OF PROSPERITY

Our customers operate in the business producing most of the world's GDB (gross domestic product). This gives us the opportunity to support the growth of prosperity all over the world. In addition, we contribute eco-effectiveness because our customers can enhance their systems, emissions control and use of resources with our systems.

WE ARE PRESENT LOCALLY AND GLOBALLY

ANDRITZ has 1,400 employees in Finland, and the centers of excellence are located in Helsinki, Kerava, Kotka, Lahti, Lappeenranta, Savonlinna, Varkaus, and Tampere. ANDRITZ Oy is owned by ANDRITZ AG of Austria, a company listed on the Vienna Stock Exchange.
