ANDRITZ wins 2021 System Integrator of the Year Award

GRAZ, MARCH 30, 2021. International technology Group ANDRITZ has received CFE Media's North American 2021 System Integrator of the Year Award in the large integrator category.

Each year, a panel of *Control Engineering* and *Plant Engineering* editors and industry experts in the USA select the System Integrator of the Year Award winners in three categories: small, medium, and large. Three general criteria are considered for the selection of winners: business skills, technical competence, and customer satisfaction.

With 109 sites and more than 2,000 employees worldwide, ANDRITZ Automation is a global competence center for plant power and control systems. Over the past few decades, ANDRITZ Automation has developed a comprehensive product portfolio for various industries and has references in several long-term partnerships with its customers, supporting them remotely in plant start-ups and optimization of production processes. ANDRITZ Automation helps its customers by applying and developing technologies and implementing Industry 4.0 concepts on the way to full plant autonomy.

To learn more about the System Integrator of the Year award and how ANDRITZ Automation is helping companies to achieve their full potential during the COVID-19 pandemic, [read the full interview in Control Engineering](#) from CFE Media.
