

PRESS RELEASE

ANDRITZ to supply key pulp production equipment for Nine Dragons Paper mills in China

GRAZ, MAY 5, 2021. International technology Group ANDRITZ has been awarded orders from Nine Dragons Paper, China, to supply equipment and key process technologies for five of their mills. Start-ups are scheduled for 2022 and 2023.

The scope of supply on EPS basis includes the following equipment:

- A **white liquor plant** with a capacity of 10,500 m³/d, including a recausticizing plant and an ANDRITZ LimeKiln. The recausticizing plant delivery includes a green liquor cooler, a LimeSlake slaker-classifier, three causticizer tank agitators, a drum filter for dregs handling, a LimeWhite filter for white liquor filtration to achieve high white liquor quality, and a LimeDry filter for efficient lime mud filtration to ensure high lime mud dryness and consequently a low heat consumption in the kiln. The ANDRITZ LimeKiln, with a capacity of 950 t/d burnt lime, will be equipped with a high-efficiency LimeCool sector cooler.
- A **recausticizing plant** with a capacity of 5,800 m³/d.
- **Two ash re-crystallization (ARC) systems** with ash handling capacities of 400 t/d and 200 t/d respectively, to treat the ash from the electrostatic precipitator by decreasing the chloride and potassium content while recovering sodium and sulphate.
- A **recausticizing plant** with a capacity of 5,800 m³/d.
- **An ash re-crystallization (ARC) system** with an ash handling capacity of 200 t/d to treat the ash from the electrostatic precipitator by decreasing the chloride and potassium content while recovering sodium and sulphate.
- Three **recausticizing plants** with a capacity of 2,500 m³/d each.

These orders once again confirm the excellent business relationship between ANDRITZ and Nine Dragons Paper.

ANDRITZ GROUP

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems and services for the pulp and paper industry, the hydropower sector, the metals processing and forming industry, pumps, solid/liquid separation in the municipal and industrial sectors, as well as animal feed and biomass pelleting. Plants for power generation, flue gas cleaning, recycling, and the production of nonwovens and panelboard complete the global product and service offering. Innovative products and services in the industrial digitalization sector are offered under the brand name Metris and help customers to make their plants more user-friendly, efficient and profitable. The publicly listed group has around 26,950 employees and more than 280 locations in over 40 countries.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides equipment, systems, complete plants and services for the production of all types of pulp, paper, board and tissue. The technologies and services focus on maximum utilization of raw materials, increased production efficiency and sustainability as well as lower overall operating costs. Boilers for power generation, flue gas cleaning systems, plants for the production of nonwovens and panelboard (MDF), as well as recycling and shredding solutions for various waste materials also form a part of this business area. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
