

PRESS RELEASE

ANDRITZ to supply approach flow equipment for two board machines to Shanying Paper, China

GRAZ, MAY 26, 2021. International technology Group ANDRITZ has received an order from Shanying Paper (Guangdong) to supply the approach flow-, fiber recovery-, and broke handling systems for two board production lines to its mill in Zhaoqing, Guangdong Province, China. Start-up is scheduled for the second quarter of 2022.

ANDRITZ' scope of supply features the following technological highlights:

- ModuScreen HBE screens with proven inflow design for highly efficient and pulsation-free headbox screening at low energy consumption
- ModuScreen F screens with advanced rotor and screen basket design enabling high screening efficiency in the broke handling
- Newly developed *PrimeFilter* D saveall disc filters with Conical Cell bagless sectors providing excellent filtrate quality and minimum maintenance efforts in the fiber recovery

Zhaoqing mill's production lines PM52 and PM53 feature a total capacity of 3,300 t/d and process OCC as raw material producing linerboard and testliner as final product.

Shanying Paper (Guangdong) Co., Ltd. is part of Shanying International Holdings Co., which is a leading enterprise producing various paper products like culture paper, kraft papers, various packaging paper boards, and corrugated cardboard boxes.

– End –

Newly developed *PrimeFilter D* saveall disc filter

ANDRITZ GROUP

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems and services for the pulp and paper industry, the hydropower sector, the metals processing and forming industry, pumps, solid/liquid separation in the municipal and industrial sectors, as well as animal feed and biomass pelleting. Plants for power generation, flue gas cleaning, recycling, and the production of nonwovens and panelboard complete the global product and service offering. Innovative products and services in the industrial digitalization sector are offered under the brand name Metris and help customers to make their plants more user-friendly, efficient and profitable. The publicly listed group has around 26,950 employees and more than 280 locations in over 40 countries.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides equipment, systems, complete plants and services for the production of all types of pulp, paper, board and tissue. The technologies and services focus on maximum utilization of raw materials, increased production efficiency and sustainability as well as lower overall operating costs. Boilers for power generation, flue gas cleaning systems, plants for the production of nonwovens and panelboard (MDF), as well as recycling and shredding solutions for various waste materials also form a part of this business area. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
