

## PRESS RELEASE

# ANDRITZ to supply chip storage system to Visy Pulp & Paper, Tumut mill, Australia

*GRAZ, AUGUST 17, 2021.* International technology Group ANDRITZ has received an order from Visy Pulp & Paper for a 243,000 m<sup>3</sup> chip handling and storage system, including a Stacker Reclaimer RST360, for its Tumut mill in New South Wales, Australia.

The ANDRITZ 360° Stacker Reclaimer is a complete system that stores and reclaims wood chips in a continuous 360° radial configuration. It operates on a true first-in, first-out (FIFO) chip management basis, ensuring homogeneous chip supply to the digester while at the same time offering a large storage capacity. ANDRITZ has several references for RST360 Stacker Reclaimers worldwide.

The discharge rate from the RST360 is automatically controlled, with the speed of the two metering screws in the hopper being adjusted to meet the capacity requirements of the pulping process. The equalizing hopper discharge is continuously monitored with a belt scale. Added to these features, the RST360 is delivered with a dedicated bypass to feed chips directly to the discharge hopper from the infeed conveyor.

Visy Pulp & Paper is a leading, privately owned packaging and resource recovery company, with more than 120 sites across Australia, New Zealand and Thailand and trading offices across Asia, Europe and the USA.

## **ANDRITZ GROUP**

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems and services for the pulp and paper industry, the hydropower sector, the metals processing and forming industry, pumps, solid/liquid separation in the municipal and industrial sectors, as well as animal feed and biomass pelleting. Plants for power generation, flue gas cleaning, recycling, and the production of nonwovens and panelboard complete the global product and service offering. Innovative products and services in the industrial digitalization sector are offered under the brand name Metris and help customers to make their plants more user-friendly, efficient and profitable. The publicly listed group has around 26,700 employees and more than 280 locations in over 40 countries.

## **ANDRITZ PULP & PAPER**

ANDRITZ Pulp & Paper provides equipment, systems, complete plants and services for the production of all types of pulp, paper, board and tissue. The technologies and services focus on maximum utilization of raw materials, increased production efficiency and sustainability as well as lower overall operating costs. Boilers for power generation, flue gas cleaning systems, plants for the production of nonwovens and panelboard (MDF), as well as recycling and shredding solutions for various waste materials also form a part of this business area. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
