

PRESS RELEASE

ANDRITZ to supply pressurized refining system for MDF production to Greenply Industries Limited, India

GRAZ, NOVEMBER 4, 2021. International technology group ANDRITZ has received an order from Greenply Industries Limited to supply a pressurized refining system for its MDF production in Vadodara, Gujarat, India. Start-up is scheduled for the third quarter of 2022.

ANDRITZ will install a state-of-the-art pressurized refining system with a capacity of 35 bdmt/h that will process wood chips for producing various types of MDF products. A 20" plug screw feeder and a high-performance single-disc refiner, type S1056, for high-quality fiber production at low energy consumption will form the centerpiece of the new line.

Sanidhya Mittal, Joint Managing Director, Greenply Industries Limited, says: *"We are very impressed with ANDRITZ's technological capability and proven track record in their supplies to various MDF plants across the world. We are looking forward to seeing ANDRITZ technology providing top performance in our new MDF production facility at Vadodara."*

Michael Rupp, Vice President for Panelboard Systems at the ANDRITZ Paper, Fiber and Recycling Division, continues: *"The order from Greenply confirms our strong position as technology supplier in the Indian MDF industry, and we are proud, in particular, to partner with such a future-oriented and fast-growing company."*

Greenply Industries Limited was founded in 1984. It is one of India's largest manufacturers of high-quality interiors and produces a broad range of MDF products, such as plywood, decorative veneers, doors, and related products. Greenply holds FSC® certification in forest management.
