

## PRESS RELEASE

# ANDRITZ successfully starts up the second of two tissue machines delivered to Guangxi Sun Paper, China

*GRAZ, JANUARY 25, 2022.* On December 25, 2021, international technology group ANDRITZ successfully started up the second of two *PrimeLine*™ W 2000 tissue machines delivered to Guangxi Sun Paper, China, for its mill in Beihai City, Guangxi Province.

The tissue machine (TM6) has a design speed of 2,000 m/min, a working width of 5.65 m and a capacity of 60,000 t/a, and it is equipped with energy-saving components (steel Yankee with head insulation, heat recovery system, Yankee Ecostream system for re-evaporation). Forming fabrics and press felts by ANDRITZ Fabrics and Rolls were installed for optimum end-product quality.

Like the TM5 order, the scope of supply also included FibreSolve FSV pulpers, the paper machine approach flow systems, broke handling and fiber recovery, and automation systems.

Guangxi Sun Paper is part of the Sun Paper Group. It was founded in 2019 with the aim of establishing an integrated pulp and paper mill in Beihai City. The new greenfield mill will presumably have a total pulp and paper capacity of 3.5 million t/year and will be built in two phases over approximately four years. With this start-up, Sun Paper now has four ANDRITZ *PrimeLine* tissue machines successfully in operation.

– End –

Successful start-up of the *PrimeLine*™ tissue machine TM6 at Guangxi Sun Paper, China

#### ANDRITZ GROUP

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems and services for the pulp and paper industry, the hydropower sector, the metals processing and forming industry, pumps, solid/liquid separation in the municipal and industrial sectors, as well as animal feed and biomass pelleting. Plants for power generation, flue gas cleaning, recycling, and the production of nonwovens and panelboard complete the global product and service offering. Innovative products and services in the industrial digitalization sector are offered under the brand name Metris and help customers to make their plants more user-friendly, efficient and profitable. The publicly listed group has around 26,800 employees and more than 280 locations in over 40 countries.

#### ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides equipment, systems, complete plants and services for the production of all types of pulp, paper, board and tissue. The technologies and services focus on maximum utilization of raw materials, increased production efficiency and sustainability as well as lower overall operating costs. Boilers for power generation, flue gas cleaning systems, plants for the production of nonwovens and panelboard (MDF), as well as recycling and shredding solutions for various waste materials also form a part of this business area. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
