

PRESS RELEASE

ANDRITZ to supply pressurized refining system to Kim Tin MDF Chon Thanh Corporation, Vietnam

GRAZ, MAY 19, 2022. International technology group ANDRITZ has received an order from Kim Tin MDF Chon Thanh Corporation to supply a chip washing and pressurized refining system for its new MDF production line in Minh Thanh Commune, Binh Phuoc province, Vietnam. Start-up is planned for the third quarter of 2023.

The new pressurized refining system will feature a design capacity of 48 bdmt/h and process rubberwood chips for producing various types of MDF products.

Hoang Van Thuy, Project Leader and Head of Technology at Kim Tin MDF Chon Thanh Corporation, says: *“Excellent fiber properties are absolutely essential for top-quality MDF products. ANDRITZ’s well-proven refining technology not only ensures excellent fiber quality, but also top performance, high reliability and easy maintenance. Based on the numerous top references available – especially in the Asian market – we decided to partner with ANDRITZ Panelboard.”*

Kim Tin MDF Chon Thanh Corporation is part of the Vietnamese Kim Tin Group, headquartered in Ho-Chi-Minh City and founded in 2000. The Kim Tin Group is active in various business fields and ranks among the most important MDF producers in Vietnam.

ANDRITZ GROUP

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems, services and digital solutions for a wide range of industries and end markets. ANDRITZ is a global market leader in all four of its business areas – Pulp & Paper, Metals, Hydro, and Separation. Technological leadership, global presence and sustainability are the cornerstones of the group's strategy, which is focused on long-term profitable growth. The publicly listed group has around 27,100 employees and over 280 locations in more than 40 countries.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on maximum utilization of raw materials, increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation. Boilers for power generation, flue gas cleaning systems, various nonwoven technologies, panelboard (MDF) production systems, as well as recycling and shredding solutions for numerous waste materials also form a part of this business area. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
