

NONWOVEN MACHINE RETROFIT

PERFORMANCE-ORIENTED SOLUTIONS DESIGNED
TO MODERNIZE YOUR MACHINES

LONG-TERM EXPERTISE

The ANDRITZ retrofit solutions are based on more than 10 years of experience and continuous innovations. Our retrofits have been developed with efficiency and durability in mind to ensure sustainable and high-quality production. In addition, we provide a long-term support service in order to respond to all your needs.

KEEPING PRODUCTION RUNNING

We know that keeping your production up and running is your number one priority, therefore we offer smart retrofit solutions to increase the life span of your machines and avoid breaks in production. These retrofits are designed to make life easier by replacing components in your machine with more reliable parts.

FAST AND EFFICIENT START-UP

Every retrofit we offer is pre-assembled and fully tested before shipping. Thus, we ensure maximum quality control as well as extensive traceability for each of our components. In addition, our pre-assembled retrofits enable us to minimize downtime and thus improve your productivity.

ENGINEERED SUCCESS

More productivity, even greater peace of mind

SOLUTIONS FOR EACH OF YOUR MACHINES

Starting at the fiber silo and moving on to the feeder, the card, crosslapper, drafter and needlelooms, we provide clever retrofit solutions for every machine in your production line. Depending on the machine, we can replace mechanical parts, electrical parts (part of or the entire control cabinet) as well as installing new software that gives you access to even more data and settings for your machines.

BENEFITS

- Long-term support and traceability for each of our components
- Troubleshooting management via remote access
- Quality-of-life features thanks to our new software and hardware components
- Increase in machine life span thanks to the modernization process
- More data available to improve productivity and

HOW TO PROCEED

Send us a request with the serial number of your machine as well as some photos. Your ANDRITZ Service Account Manager will study your case with the ANDRITZ team and provide the best solution for your machine.
