A25 NEEDLELOOM REFURBISHMENT

SECURE YOUR NEEDLELOOM'S SUSTAINABILITY

LONG-LASTING INSTALLED BASE

A25 needlelooms have been on the market for more than 30 years and, having been designed with durability in mind, most of them are still operational today. We now offer you the opportunity to have your A25 needlelooms audited in order to enhance operations with our clever, retrofit solution.

AVOID BREAKS IN PRODUCTION

Retrofitting your A25 needleloom will not only increase its lifespan and capabilities, but also its reliability as we utilize modern and proven components to upgrade your machine. This process will ensure better machine monitoring and minimize the risk of production stoppages.

FAST AND EFFICIENT START-UP

Our A25 needleloom retrofit is pre-assembled and fully tested before shipping. Thus, we ensure maximum quality control, extensive traceability for every component, and minimized downtime for installation purposes.

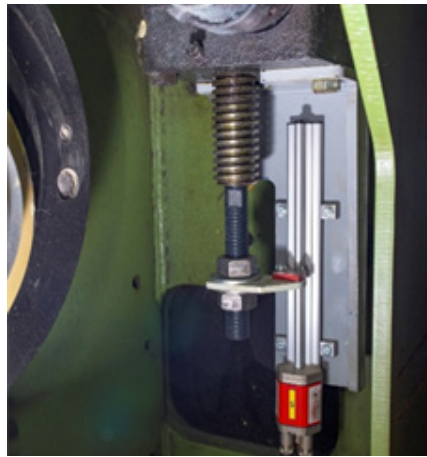

ANDRITZ

ENGINEERED SUCCESS

Modernization in the interests of your needling process

WHAT WILL BE REPLACED?

In order to keep your A25 needle-looms up to date, we replace such components as the gearbox, module belts, crankshaft, connecting rods, guiding boxes, and bearing accessories. In addition, we can install contactless sensors for gap and penetration settings together with a new touchscreen to monitor and control the different bed and stripper plate positions you need in production..

BENEFITS

- Continuous development of our retrofitting components
- Long-term traceability for each of our parts
- Extensive and user-friendly screen interface
- New easy-to-use features such as gap and penetration adjustments, better machine monitoring and consistent settings thanks to our new touchscreen
