

## PRESS RELEASE

# ANDRITZ to supply third pressurized refining system to Shandong Canfield Wood Industry, China

*GRAZ, JULY 5, 2022.* International technology group ANDRITZ has received the third order from Shandong Canfield Wood Industry Co., Ltd. to supply a pressurized refining system to its mill in Chiping County, Liaocheng City, Shandong Province, China. Start-up is scheduled for the first quarter of 2023.

The state-of-the-art pressurized refining system with innovative C-feeder will process poplar wood chips for production of high-quality fibers for MDF (medium-density fiberboard).

Zhang Ruzhen, President of Shandong Canfield Wood industry, says: *"We already have two MDF lines with ANDRITZ pressurized refining systems in our mills. They are operating smoothly and enable high fiber quality at lower energy consumption. Shorter downtime and less maintenance work ensure high availability and save costs. All in all, good reasons to opt for ANDRITZ once more."*

Shandong Canfield Wood Industry was founded in 2000 and produces up to 600,000 m<sup>3</sup> of medium- and high-density fiberboard as well as laminate flooring per year.

#### **ANDRITZ GROUP**

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems, services and digital solutions for a wide range of industries and end markets. ANDRITZ is a global market leader in all four of its business areas – Pulp & Paper, Metals, Hydro, and Separation. Technological leadership, global presence and sustainability are the cornerstones of the group's strategy, which is focused on long-term profitable growth. The publicly listed group has around 27,100 employees and over 280 locations in more than 40 countries.

#### **ANDRITZ PULP & PAPER**

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on maximum utilization of raw materials, increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation. Boilers for power generation, flue gas cleaning systems, various nonwoven technologies, panelboard (MDF) production systems, as well as recycling and shredding solutions for numerous waste materials also form a part of this business area. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
