

## PRESS RELEASE

# ANDRITZ to supply four stock preparation systems for tissue production to Guangxi Sun Paper, China

*GRAZ, JULY 22, 2022.* International technology group ANDRITZ has received an order from Guangxi Sun Paper Co., Ltd. to supply four stock preparation systems for its tissue machines PM 9 to 12 in Beihai, Guangxi Province, China. Start-up is scheduled for the third or fourth quarter of 2022.

The state-of-the-art stock preparation systems have an aggregate design capacity of 360 tons per day and process NBKP (Needle Bleached Kraft Pulp) and LBKP (Leaf Bleached Kraft Pulp) to produce tissue. ANDRITZ will install the complete process technology from pulping to refining, including fiber recovery. The scope of supply also comprises erection, commissioning, start-up, training, and service.

Guangxi Sun Paper and ANDRITZ have maintained a close business relationship for many years. Top-quality and energy-saving technology, as well as professional support during the complete project phase, were the decisive factors for once again placing their trust in ANDRITZ.

Since 2005, ANDRITZ has successfully supplied more than 100 stock preparation and paper machine approach flow systems for tissue production mills in China. The order once more confirms ANDRITZ's strong position in this sector.

Guangxi Sun Paper was established in 2019 to build an integrated pulp and paper mill in Beihai. The mill will be built in two phases over a period of approximately five years. When completed, it will have a total annual capacity of 3.5 million tons of pulp and paper.

## **ANDRITZ GROUP**

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems, services and digital solutions for a wide range of industries and end markets. ANDRITZ is a global market leader in all four of its business areas – Pulp & Paper, Metals, Hydro, and Separation. Technological leadership, global presence and sustainability are the cornerstones of the group's strategy, which is focused on long-term profitable growth. The publicly listed group has around 27,100 employees and over 280 locations in more than 40 countries.

## **ANDRITZ PULP & PAPER**

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on maximum utilization of raw materials, increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation. Boilers for power generation, flue gas cleaning systems, various nonwoven technologies, panelboard (MDF) production systems, as well as recycling and shredding solutions for numerous waste materials also form a part of this business area. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
