

## PRESS RELEASE

# ANDRITZ invites you to “Tissue World Talks” on November 3, 2022

- Challenges for tissue manufacturers are rising substantially
- How can machine suppliers like ANDRITZ help to mitigate these challenges?
- Is sustainability at risk?

*GRAZ, OCTOBER 27, 2022.* Talk, listen, debate with our expert Carlos Gallo, Director Tissue Technology and R&D, at Tissue World Talks in the online panel discussion on the future direction of the tissue market.

Interrupted supply chains, the threat of discontinued gas supply in several countries, and peak values for main cost components like fiber, gas and electricity - the challenges for operating tissue mills - not only, but especially in Europe – are becoming ever greater. Demand for tissue is expected to remain strong, but how can tissue manufacturers cope with these challenges when the pressure is coming from so many directions? How can tissue machine suppliers help to mitigate these challenges? Is now the time to pro-actively invest in new machines? What about sustainability?

It's time to talk about implications and potential consequences, but also about possible solutions. Carlos Gallo, together with key industry leaders and you in the audience, will discuss the best way forward during Tissue World's virtual panel discussion on **November 3, 2022 at 11 AM CET** (Central European Time).

ANDRITZ is looking forward to meeting you at Tissue World Talks! To register free of charge, please visit <https://www.tissueworldmagazine.com/webinar/webinar-series-tissue-world-talks-the-road-to-dusseldorf/> or contact us at [tissue@andritz.com](mailto:tissue@andritz.com).

#### **ANDRITZ GROUP**

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems, services and digital solutions for a wide range of industries and end markets. ANDRITZ is a global market leader in all four of its business areas – Pulp & Paper, Metals, Hydro, and Separation. Technological leadership, global presence and sustainability are the cornerstones of the group's strategy, which is focused on long-term profitable growth. The publicly listed group has around 27,400 employees and over 280 locations in more than 40 countries.

#### **ANDRITZ PULP & PAPER**

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on maximum utilization of raw materials, increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation. Boilers for power generation, flue gas cleaning systems, various nonwoven technologies, panelboard (MDF) production systems, as well as recycling and shredding solutions for numerous waste materials also form a part of this business area. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
