**ANDRITZ**

ENGINEERED SUCCESS

# The metal cutting experts

including advanced high strength steel

## ASKO SLITTER KNIVES

For better edge quality and tighter tolerances, ANDRITZ manufactures slitter knives custom designed for your application. Get details in the ASKO Slitter Tooling Technical Brief.

## ASKO ACCULITE™ SPACERS

ASKO's Acculite steel polymer composite spacers are as much as 70% lighter than traditional spacers while maintaining the same performance characteristics.

## ASKO SHEAR & SCRAP CHOPPER KNIVES

ANDRITZ shear and chopper knives are available in grades and designs for every metal shearing application.

## EDGEMASTER SHIMLESS TOOLING SETS

ASKO shimless tooling sets produce the most accurate slitter set-ups possible. ANDRITZ tooling exceeds every industry spec, and when used in conjunction with ANDRITZ's patented EdgeMaster software, provides the fastest, most accurate set-ups to increase productivity and optimize product quality.

## EDGEMASTER SET-UP SOFTWARE

EdgeMaster improves slit edge quality, speeds the set-up process, and improves set-up accuracy. It copes with the unique demands of any coil processing operation. Because of its intuitive interface, operators can use it without training.

## AMTEC HYDRAULIC NUTS & PRECISION PUMPS

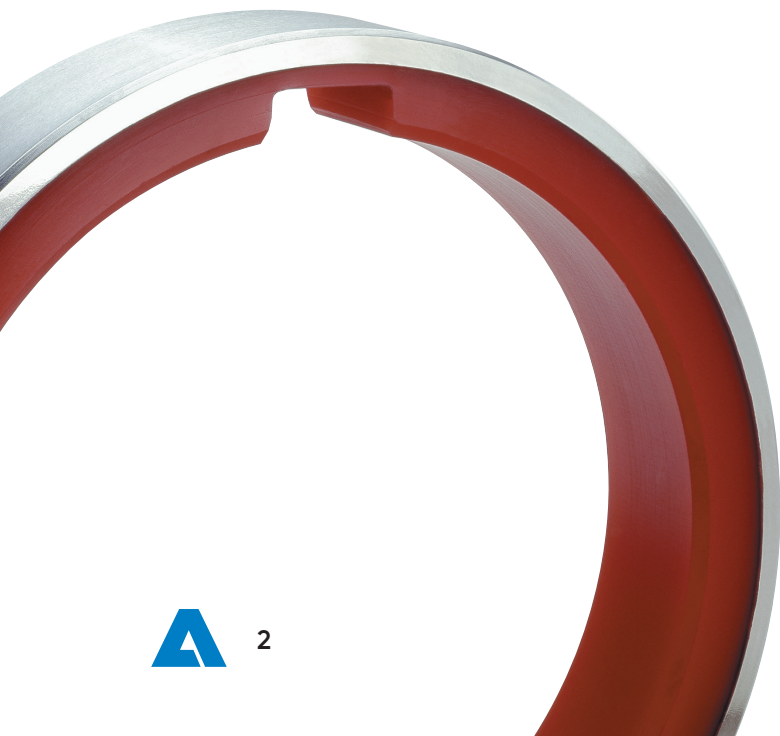

Amtec hydraulic nuts from ANDRITZ – available in steel or lightweight aluminum – are durable, leak proof and deliver the industry's highest reliable pressures.

## ASKO SPACERS

ASKO spacers are manufactured from high quality alloy steels and meet or exceed the industry's most exacting tolerances. Alternative material grades are available for special applications

## ASKO SNUG FIT OR BONDED STRIPPER RINGS

ANDRITZ offers stripper rings for every metal slitting application, manufactured from solid or composite materials including alloy steel, Buna-N, neoprene or polyurethane.

### **ASKO OVERARM SEPARATOR TOOLING**

ANDRITZ manufactures overarm separator discs and recoiler plates from long-wearing, hardened alloy grades. ANDRITZ offers overarm spacers in a variety of materials including steel, aluminum, micarta, nylon and polyurethane. ANDRITZ provides a variety of surface finishes according to your application requirements.

### **TRANSFER BOXES & CABINETS**

ANDRITZ custom-designed tooling storage cabinets, knife storage and transportation boxes protect your tooling investment.

### **RECONDITIONING SERVICE**

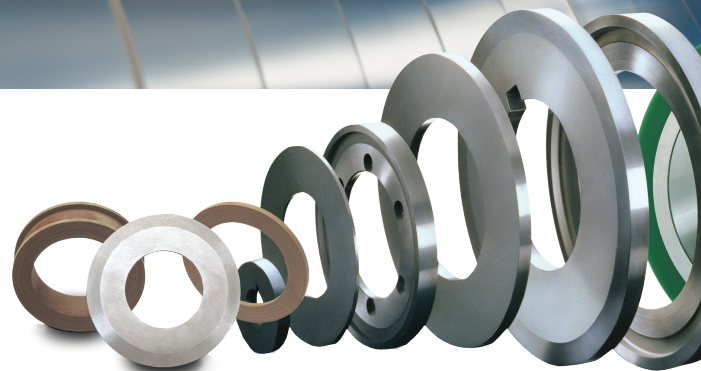

ANDRITZ reconditioning and regrinding services restore your knives, stripper rings and spacers to the original specifications and tolerances or better. ANDRITZ also provides shims and bolts for shear knives and performs custom grinding for your special requirements.

### **TRAINING SEMINARS AND TECHNICAL ASSISTANCE**

ANDRITZ offers customized training seminars to improve your slitting and shearing knowledge and expertise. Let ANDRITZ train your personnel in the most cost-effective manner. Visit [www.ANDRITZ.com](http://www.ANDRITZ.com) for details on our seminars.

### **GET STARTED!**

Call us today for a free diagnostic. We will gather detailed information about your application and what you are trying to achieve, including specifications and other product information. From there our engineers will generate a recommendation and custom quotation on the product that will produce the best run times and product quality for you.

To receive a quote, call us directly at 1-800-321-1310  
or email [asko.inquiries@andritz.com](mailto:asko.inquiries@andritz.com)
