

PRESS RELEASE

ANDRITZ invites to “TissueTalk” webinar in cooperation with Tissue World Magazine

- Discover the impact of fiber on CO₂ reduction
- Discuss about alternative fiber usage-options
- Learn about potential savings in high-quality tissue production

GRAZ, JANUARY 31, 2023. International technology group ANDRITZ presents its innovative fiber technologies for fiber treatment, usage and savings for sustainable tissue production at the TissueTalk webinar in cooperation with Tissue World Magazine.

Date: February 9, 2023 at 11:00 AM GMT (Greenwich Mean Time).

Major Topics presented:

How can fibres be treated and prepared for sustainable tissue production? What are the latest R&D findings of ANDRITZ' fiber experts and how do customers experience ANDRITZ' pilot plants for fiber preparation and tissue production in Austria and the US?

ANDRITZ R&D experts will be presenting the latest solutions, R&D projects and trial results on:

- **Excellence in virgin fibers: Annual fiber treatment**, by **Antti Luukonen**, Director R&D Center Fiber at ANDRITZ.
- **Excellence in stock preparation: Technologies for fiber saving**, by **Andreas Gorton-Huelgerth**, Global Director Technology Fiber at ANDRITZ.
- **Excellence in tissue production: CO₂ footprint reduction via fiber saving and alternative fibers**, by **Franz Harrer**, Head of Technology Tissue at ANDRITZ.

ANDRITZ is looking forward to meeting you at TissueTalk! To register free of charge, please visit <https://www.tissueworldmagazine.com/webinar/tissuetalk-every-detail-counts-the-impact-of-fiber-on-co2-reduction-in-tissue-production/?cid=EXTPress> or contact us at tissue@andritz.com.

ANDRITZ GROUP

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems, services and digital solutions for a wide range of industries and end markets. ANDRITZ is a global market leader in all four of its business areas – Pulp & Paper, Metals, Hydro, and Separation. Technological leadership, global presence and sustainability are the cornerstones of the group's strategy, which is focused on long-term profitable growth. The publicly listed group has around 27,900 employees and over 280 locations in more than 40 countries.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on maximum utilization of raw materials, increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation. Boilers for power generation, flue gas cleaning systems, various nonwoven technologies, panelboard (MDF) production systems, as well as recycling and shredding solutions for numerous waste materials also form a part of this business area. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
