

PRESS RELEASE

ANDRITZ to supply TAD tissue machine to Procter & Gamble, Box Elder, Utah mill, USA

GRAZ, FEBRUARY 20, 2023. International technology group ANDRITZ has received an order from Procter & Gamble (P&G) to supply a *PrimeLineTAD* (Through-Air Dried) tissue machine for its Family Care plant in Box Elder, Utah, USA. Equipment delivery is scheduled for 2024.

The new *PrimeLineTAD* machine will be supplied with state-of-the-art energy efficient process equipment to meet P&G's demanding sustainability targets.

ANDRITZ and Procter & Gamble have been strong business partners for many years. In 2007, ANDRITZ supplied and started up a TAD tissue/towel machine at Procter and Gamble's Green Bay, Wisconsin, USA site that fully met P&G's expectations. This was followed by another TAD tissue/towel machine at Procter and Gamble's Box Elder facility, which started up successfully in 2011.

Procter and Gamble, one of the largest manufacturers of premium consumer bath tissues and paper towels in North America, produces the brands of Charmin, Puffs, and Bounty.

ANDRITZ GROUP

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems, services and digital solutions for a wide range of industries and end markets. ANDRITZ is a global market leader in all four of its business areas – Pulp & Paper, Metals, Hydro, and Separation. Technological leadership, global presence and sustainability are the cornerstones of the group's strategy, which is focused on long-term profitable growth. The publicly listed group has around 27,900 employees and over 280 locations in more than 40 countries.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on maximum utilization of raw materials, increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation. Boilers for power generation, flue gas cleaning systems, various nonwoven technologies, panelboard (MDF) production systems, as well as recycling and shredding solutions for numerous waste materials also form a part of this business area. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
