

ENERGY-EFFICIENT SLUDGE DEWATERING ON THE MOVE

Mobile screw press technology

Looking for a mobile dewatering solution, which would allow you to:

- Handle a punctual need for sludge dewatering?
- Dewater sludge in several small wastewater treatment plants in a certain area with site access or geographical constraints (islands, mountains,...)?
- Simply test screw press technology before acquisition (try & buy)?

The C-Press mobile unit is the ideal solution for an efficient dewatering, with an energy-friendly technology, still in move.

Available as rental or acquisition, you will enjoy all the advantages of this small mobile unit (< 3.5T):

- Allows access to all sizes of WWTP, even in the most restricted and restrictive locations

- Easy operation (could be managed by yourself after a short training)
- Heating available for operation at temperatures down to -5°C, with optional air conditioning for warm climates
- Accommodate the electrical limits of small installations
- Easily transportable with light vehicle

ANDRITZ

High dewatering performance combined with a compact design

This mobile unit, featuring a C-Press screw press, is currently available in two versions:

Size	Feed capacity (m ³ /hr)	Average dry solids throughput (kg/hr)
C4010 (for sale only)	1-5	20-85
C4020 (for sale and rental)	2-10	50-125

All in all, this C-Press mobile unit will allow you to enjoy all the benefits of the ANDRITZ screw press, such as:

- Consistent performance with very low power consumption and reduced polymer consumption compared to other dewatering technologies
- Minimal wear and long service life
- Ease of operation and maintenance: Very low noise emissions, and low and simple maintenance thanks to easy access
- Fully automatic machine with continuous control of performance, screw speed, counter-pressure, and washing

C-Press C4010

C-Press C4020

The ANDRITZ mobile unit is easily transportable with light vehicle
