

# NONWOVEN CROSSLAPPER APRONS

DESIGNED TO OPERATE IN CONJUNCTION  
WITH ANDRITZ MACHINES

## **LONG-TERM EXPERTISE AND KNOW-HOW**

The ANDRITZ crosslapping technology is based on 60 years of experience and continuous innovations. The design of our crosslapper aprons is centered around efficiency, durability and precision to ensure the best quality for your production operations.

We know how important quality is for you and your customers. That's why we advise you to replace your aprons regularly with new ones in order to maintain the optimum quality level and prevent breaks in production.

## **TAILORED SOLUTIONS**

Our expertise and fully equipped facilities allow us to tailor an offer down to the smallest detail. Consequently, the apron will always match the machine design and your requirements perfectly.

# **ANDRITZ**

**ENGINEERED SUCCESS**

# Full quality control for a secure and improved production

Fully equipped test facilities, including laboratories for all detailed examinations

## BENEFITS

- Aprons designed to work efficiently with our machines
- Proven control processes to ensure maximum durability
- Tested and proven material for optimum quality
- Manufacturing tailored to your needs thanks to the worldwide experience of our textile engineers
- Long-term experience gathered from all the equipment we have installed enables ANDRITZ to provide excellent after-sales service
- Life cycle management of your aprons in order to answer all of your demands

## DEEPER INSIGHTS INTO ALL TESTING DETAILS

Thanks to ANDRITZ's fully equipped facilities, we can offer complete control over and traceability of every single component that goes into the cross-lapper. Thus, we control the mass, thickness and stiffness of our aprons in addition to testing the tearing, stretching and friction coefficients through advanced tribology procedures. Our cutting-edge machine allows us to dimension the aprons precisely according to your machine design. Finally, we have designed our aprons with durability in mind so that they will last longer.
