

CROSSLAPPER APRONS

Designed to operate in conjunction
with ANDRITZ machines

LONG-TERM EXPERTISE

With 60 years of experience, ANDRITZ designs the aprons crosslapper, focused on efficiency, durability, and precision to ensure the best production quality. Replace your aprons regularly to maintain an optimal quality level and avoid production downtime.

TAILORED SOLUTIONS

Our expertise and fully equipped facilities allow us to tailor an offer down to the smallest detail. Consequently, the apron will always match the machine design and your requirements perfectly.

ANDRITZ

Full quality control for a secure and improved production

Fully equipped test facilities, including laboratories for all detailed examinations

COMPREHENSIVE QUALITY CONTROL FOR RELIABLE PRODUCTION

Thanks to ANDRITZ's fully equipped facilities, we can offer complete control over and traceability of every single component that goes into the crosslapper. Thus, we control the weight, thickness, stiffness, tear resistance, and friction coefficients through advanced tribology.

Our cutting-edge machine allows us to dimension the aprons precisely according to your machine design. Finally, we have designed our aprons with durability in mind so that they will last longer.

BENEFITS

- Aprons designed to work efficiently with our machines
- Proven control processes to ensure maximum durability
- Tested and proven material for optimum quality
- Manufacturing tailored to your needs thanks to the worldwide experience of our textile engineers
- Long-term experience gathered from all the equipment we have installed enables ANDRITZ to provide excellent after-sales service
- Life cycle management of your aprons in order to answer all of your demands
