Liansheng Pulp & Paper successfully starts up two ANDRITZ *PrimeLine*TM tissue machines

GRAZ, MAY 24, 2023. Liansheng Pulp & Paper (Zhangzhou) Co., Ltd. has successfully started up two ANDRITZ tissue machines including stock preparation and automation systems at its mill in Zhangzhou, Fujian Province, China.

The tissue machines of the type *PrimeLine*TM W 2000 have a design speed of 2,000 m/min and a working width of 5.65 m. Both are equipped with energy-saving components like 20 ft. *PrimeDry* Steel Yankees and steam-heated hoods.

The stock preparation systems, using NBKP (Needle Bleached Kraft Pulp) and LBKP (Leaf Bleached Kraft Pulp), feature FibreSolve FSV pulpers, a pulp screw press and HC refiners to achieve consistencies in the range of 25%-30% and excellent fiber properties. The scope also includes the approach flow systems, broke handling, and a comprehensive fabrics and rolls package (forming fabrics, press felts, roll covers) for optimum dewatering at high speed.

Fan Lele, Vice Sales General Manager of Household Paper, Liansheng Pulp & Paper, says: “*We were really excited to hold the first tissue in our hands. The tissue quality has been excellent right from the start.*”

Liansheng Pulp & Paper (Zhangzhou) Co., Ltd., a new production base of the Liansheng Paper Group, was established in 2020, in order to enter the household paper production industry. It is the largest packaging paper manufacturer in Fujian, China with a special focus on environmental-friendly production.

ANDRITZ GROUP

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems, services and digital solutions for a wide range of industries and end markets. Sustainability is an integral part of the company's business strategy and corporate culture. With its extensive portfolio of sustainable products and solutions, ANDRITZ aims to make the greatest possible contribution to a sustainable future and help its customers achieve their sustainability goals. ANDRITZ is a global market leader in all four of its business areas – Pulp & Paper, Metals, Hydro and Separation. Technological leadership and global presence are cornerstones of the group's strategy, which is focused on long-term profitable growth. The publicly listed group has around 29,700 employees and over 280 locations in more than 40 countries.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation.

The product portfolio also includes boilers for power generation, flue gas cleaning systems, various nonwoven technologies, and panelboard (MDF) production systems. With waste-to-value recycling, shredding and energy solutions, waste and by-product streams from production are converted into valuable secondary raw materials as well as into sustainable resources for energy generation. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
