

PRESS RELEASE

ANDRITZ receives follow-up order to supply woodyard equipment for Liansheng's Zhangzhou pulp mill in China

GRAZ, MAY 25, 2023. ANDRITZ has received an order from Liansheng Pulp & Paper Co., Ltd. to supply two debarking and chipping lines for the new pulp mill being built in Zhangzhou, Fujian province, China. The company had already entrusted ANDRITZ with major supplies for the pulp mill last year.

ANDRITZ's scope of supply for the woodyard includes two debarking lines with rubber tire supported debarking drums for excellent debarking results with very low wood losses as well as horizontally fed HHQ-Chippers ensuring high capacity without compromising on chip quality. The line has a capacity of 300 m³ hardwood solid-over-bark per hour. The scope also includes a bark handling system with three BioCrusher BSX machines and bark storage with two ParaScrew travelling screw reclaimers.

The order will be completed on an EPS (Engineering, Procurement, Supervision) basis. Start-up is scheduled for the third quarter of 2024.

This order shows the excellent business relationship between ANDRITZ and Liansheng Pulp & Paper. ANDRITZ is already in the process of supplying state-of-the-art, environmentally friendly technologies for all main process islands in the fiber production plant and the chemical recovery plant to the Zhangzhou mill.

Liansheng Pulp and Paper (Zhangzhou) Co., LTD., founded in April 2020, is a new forest, pulp and paper integrated production base being built by Liansheng Paper, which is the largest packaging board producer in Fujian Province, China. Liansheng Paper pays special attention to environment friendly production.

– End –

ANDRITZ's scope of supply to Liansheng's Zhangzhou pulp mill includes two debarking lines with rubber tire supported debarking drums.

ANDRITZ GROUP

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems, services and digital solutions for a wide range of industries and end markets. Sustainability is an integral part of the company's business strategy and corporate culture. With its extensive portfolio of sustainable products and solutions, ANDRITZ aims to make the greatest possible contribution to a sustainable future and help its customers achieve their sustainability goals. ANDRITZ is a global market leader in all four of its business areas – Pulp & Paper, Metals, Hydro and Separation. Technological leadership and global presence are cornerstones of the group's strategy, which is focused on long-term profitable growth. The publicly listed group has around 29,700 employees and over 280 locations in more than 40 countries.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation.

The product portfolio also includes boilers for power generation, flue gas cleaning systems, various nonwoven technologies, and panelboard (MDF) production systems. With waste-to-value recycling, shredding and energy solutions, waste and by-product streams from production are converted into valuable secondary raw materials as well as into sustainable resources for energy generation. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
