

## PRESS RELEASE

# HKB-Hoa Lu Paper of Vietnam successfully starts up OCC line delivered by ANDRITZ

*GRAZ, AUGUST 3, 2023.* HKB-Hoa Lu Paper Co., Ltd. has successfully started up an OCC (old corrugated containers) line and a reject treatment system delivered by ANDRITZ at its mill in Nho Quan District, Ninh Binh Province, Vietnam.

The new line processes OCC with a capacity of 500 t/d to produce high-quality testliner and corrugated medium for the local and Chinese markets.

Mr. Ngo Huu Phuong, Vice Chairman, HKB-Hoa Lu Paper, says: *“Thanks to the excellent cooperation between our team and ANDRITZ, the line has started up successfully as scheduled. We expect this line will perform excellently and produce highly competitive products.”*

ANDRITZ's scope of supply comprised the complete stock preparation equipment including the approach flow, fiber recovery, and reject treatment systems, detailed engineering and supervision of erection and commissioning as well as operation and maintenance support.

The innovative technology, including *PrimePulping* LC system, *PrimeScreen* X, dispersing system, *ModuScreen* HBE, as well as *saveall DiscFilter*, ensures high efficiency and superior final stock quality paired with excellent fiber properties. Minimum fiber losses and low specific power consumption are further benefits of the new system.

HKB-Hoa Lu Paper Joint Stock Company was established in 2020 and focuses on the production of various board products.

## **ANDRITZ GROUP**

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems, services and digital solutions for a wide range of industries and end markets. Sustainability is an integral part of the company's business strategy and corporate culture. With its extensive portfolio of sustainable products and solutions, ANDRITZ aims to make the greatest possible contribution to a sustainable future and help its customers achieve their sustainability goals. ANDRITZ is a global market leader in all four of its business areas – Pulp & Paper, Metals, Hydro and Separation. Technological leadership and global presence are cornerstones of the group's strategy, which is focused on long-term profitable growth. The publicly listed group has around 29,900 employees and over 280 locations in more than 40 countries.

## **ANDRITZ PULP & PAPER**

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation.

The product portfolio also includes boilers for power generation, flue gas cleaning systems, various nonwoven technologies, and panelboard (MDF) production systems. With waste-to-value recycling, shredding and energy solutions, waste and by-product streams from production are converted into valuable secondary raw materials as well as into sustainable resources for energy generation. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
