

## PRESS RELEASE

# Greenply produces first fibers with new ANDRITZ pressurized refining system

*GRAZ, AUGUST 23, 2023.* Greenply Industries Limited has successfully produced first fibers with its new high-performance pressurized refining system from ANDRITZ at its MDF (medium-density fiberboard) production facility in Vadodara, Gujarat, India.

Sanidhya Mittal, Joint Managing Director, Greenply Industries Limited, says: *“The pressurized refining system from ANDRITZ is highly efficient and energy saving, which is in line with our environmentally friendly production process. We would like to thank ANDRITZ and its team for their assistance during the installation and the high level of professionalism throughout the whole project.”*

The refining system has a design capacity of 35 bdmt/h and processes wood chips for producing various types of MDF products. It is equipped with a proven S 1056M single disc refiner ensuring highly efficient pre-steaming, low electricity and thermal energy consumption, as well as excellent dewatering in the 20” plug screw feeder.

Greenply Industries Limited, founded in 1984, is one of India’s largest manufacturers of high-quality interiors and produces a broad range of MDF products, such as plywood, decorative veneers, doors, and related products. Greenply holds the FSC® certification in forest management.

## **ANDRITZ GROUP**

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems, services and digital solutions for a wide range of industries and end markets. Sustainability is an integral part of the company's business strategy and corporate culture. With its extensive portfolio of sustainable products and solutions, ANDRITZ aims to make the greatest possible contribution to a sustainable future and help its customers achieve their sustainability goals. ANDRITZ is a global market leader in all four of its business areas – Pulp & Paper, Metals, Hydro and Separation. Technological leadership and global presence are cornerstones of the group's strategy, which is focused on long-term profitable growth. The publicly listed group has around 29,900 employees and over 280 locations in more than 40 countries.

## **ANDRITZ PULP & PAPER**

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation.

The product portfolio also includes boilers for power generation, flue gas cleaning systems, various nonwoven technologies, and panelboard (MDF) production systems. With waste-to-value recycling, shredding and energy solutions, waste and by-product streams from production are converted into valuable secondary raw materials as well as into sustainable resources for energy generation. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
