Meisheng expands production with third ANDRITZ needlepunch line

梅盛公司通过第三条安德里茨针刺生产线扩大产能

GRAZ, 07.05.2024. Meisheng Group has started up a new ANDRITZ needlepunch line at its facility in Shaoxing City, Zhejiang Province, China. It is the third line supplied by ANDRITZ to the renowned manufacturer of high-end nonwoven synthetic leather. This expansion will enable Meisheng to address the growing demand for synthetic suede in the automotive industry, particularly for New Energy Vehicles (NEVs).

2024 07 05, 格拉茨。梅盛集团在其位于中国浙江绍兴市的工厂投产了一条全新的安德里茨针刺生产线。这是安德里茨提供给知名高端非织造超纤合成革制造商的第三条生产线。此次扩建将使梅盛能够满足汽车行业，特别是新能源汽车（NEVs），对合成麂皮日益增长的需求。

Mr. Qian Guochun, Chairman of Meisheng, commented: "In view of the strong demand for our premium synthetic suede, especially for NEVs, we have placed our trust in ANDRITZ for the third time. With the new needlepunch line we are expanding our capacity while maintaining our high quality standards."

梅盛董事长钱国春先生评论道：“鉴于市场对我们优质合成麂皮的强劲需求，特别是新能源汽车行业的需求，我们选择第三次与安德里茨合作。采用新的针刺生产线，保持高质量标准的同时又扩大了工厂产能。”

The advanced line is equipped with a ProWid™ system that allows Meisheng to ensure an optimum web weight regularity across the full product width. As a result, the web distribution is drastically improved, which reduces material consumption (fibers) and improves web weight evenness (CV%) – factors that are particularly important in synthetic leather manufacturing for automotive applications.

先进生产线已配备ProWid™系统，使梅盛能够在整个产品宽度上保证最佳纤网克重均匀性。这样，纤网分布就可得到极大的改善，从而减少纤维消耗，提高纤网克重均匀度（CV值）——这些因素在汽车行业应用的合成革制造中尤为重要。

Founded in 1994, Zhejiang Meisheng New Material Co., Ltd. is an internationally renowned maker of high-end textiles and nonwoven synthetic leather. Through a consistent focus on R&D, Meisheng has established itself as a pioneer in the production of nonwoven microfiber synthetic leather in China.

浙江梅盛新材料有限公司创立于1994年，是一家国际知名的高端纺织及非织造生态型合成革制造企业。通过不断研发，梅盛已成为中国开发制造非织造超纤合成革先锋企业。

ANDRITZ GROUP

International technology group ANDRITZ offers a broad portfolio of innovative plants, equipment, systems, services and digital solutions for a wide range of industries and end markets. Sustainability is an integral part of the company's business strategy and corporate culture. With its extensive portfolio of sustainable products and solutions, ANDRITZ aims to make the greatest possible contribution to a sustainable future and help its customers achieve their sustainability goals. ANDRITZ is a global market leader in all four of its business areas – Pulp & Paper, Metals, Hydropower and Environment & Energy. Technological leadership and global presence are cornerstones of the group's strategy, which is focused on long-term profitable growth. The publicly listed group has around 30,000 employees and over 280 locations in more than 80 countries.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation.

The product portfolio also includes boilers for power generation, various nonwoven technologies, and panelboard (MDF) production systems. With waste-to-value recycling, shredding and energy solutions, waste and by-product streams from production are converted into valuable secondary raw materials as well as into sustainable resources for energy generation. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
