

TEXTILE

BACK TO THE FUTURE

**RETURN TO HIGH PERFORMANCE LEVEL
FOR YOUR RAMISCH-KLEINWEFERS CALENDER**

ANDRTZ

ENGINEERED SUCCESS

Get your calender back in shape and at peak level

Comprehensive service is our passion: Since 2002, also Ramisch-Kleinewefers calenders are serviced by ANDRITZ. As you may know, these high-quality calenders have a long product life cycle. In order to ensure trouble-free functionality in future as well, it is essential to check and service the machines together with all its components on a regulary basis.

SERVICES FOR YOUR RAMISCH-KLEINWEFERS CALENDER:

ROLL SERVICE

Original spare rolls, roll repairs
and reconditioning of
damaged rolls

Be it original spare rolls, roll repairs, roll covers, and reconditioning of damaged rolls, our rolls specialists have comprehensive knowledge to assist you in any need you may have. In our roll service and manufacturing center in Krefeld, Germany, we have specialized tools to recondition and repair damaged rolls, to conduct roll inspections and modernizations, and test all details before sending the roll back to your facilities.

In particular, aged Ramisch-Kleinewefers calenders, rolls and spare rolls need regulary checks and, if needed, an overhauling and a new roll cover. This keeps your production process at high level or brings it even beyond. Roll covers, like the renowned Racolan cover are manufactured inhouse in our roll service center. This guarantees very high and reliable quality. Ask for your individual non-binding offer.

SPARE & WEAR PARTS

Genuine spare and wear parts,
installation service, inspection
and audits, and tailored spare
part kits

To ensure the integrity and the performance of your equipment, we recommend using only original spare and wear parts. We know, that this is not an easy task, especially for old machines. Our spare and wear parts team is at your disposal to inspect and audit your parts, help you to make your choice for individual spare and wear parts, recommend tailored spare part kits, and also install the parts on your Ramisch-Kleinewefers calender.

Moreover, original components may also no longer be available. We determine and supply successors and carry out any necessary modifications to the system on site to ensure that new components work smoothly.

YOUR BENEFITS

- Elimination of all technical defects such as age-typical squeaking, oil-dripping, unsteady running of the roll
- Documentation of all maintenance measures inclusive subsequent test certificate
- Considerable improvement for your production and product quality
- ANDRITZ uses only original parts with tested quality or find the best suitable successor part
- Regularly maintenance avoids additional costs such as machine downtime
- Our service experts provide long-standing know of numerous machines from the time of commissioning
- Our service team attend to your inquiries quickly and in a customer-oriented process

REBUILDS & UPGRADES

Increase of productivity, machine availability and reliability, and optimized processes with profound equipment

Enhance your machine with state-of-the-art equipment and increase the reliability of your production. We offer several rebuild and upgrade options especially for Ramisch-Kleinewefers calenders and rolls. For instance, replacement of your old hot water heating system with a modern and trouble-free successor. For any queries, our experienced service team is at your disposal at any time. We look forward to hearing from you.
