

IMPROVE EFFICIENCY AND MEET ENVIRONMENTAL GOALS

WITH ANDRITZ EcoTeq™ FILTER BAGS

ANDRITZ fabric filters have been developed over the past decade to reduce particulate emissions, capital costs, and footprint for various applications. With extensive experience in fabric filter technology, ANDRITZ is supplying and manufacturing its own filter

bags and cages in various types of materials under the EcoTeq™ Brand. For ANDRITZ, a bag is more than just a wear part - it is a critical factor in the performance of the filtration system. As an Original Equipment Manufacturer (OEM), we control the entire bag manufacturing process.

By overseeing every stage, through the lifecycle from a filter bag, we ensure that the highest quality standards are maintained. With our manufacturing facilities in Europe, we adhere to strict European quality standards known for their emphasis on durability, safety, and sustainability.

ANDRITZ

Why choose ANDRITZ EcoTeq™ Filter Bags?

SUPERIOR FILTRATION EFFICIENCY

Our filter bags are engineered to capture even the finest dust particles, ensuring cleaner emissions and compliance with environmental regulations.

DURABILITY AND LONGEVITY

Made from high-quality materials, EcoTeq™ filter bags offer exceptional durability, reducing the replacement frequency and downtime.

COST-EFFECTIVE

With their extended lifespan and high efficiency, our filter bags provide a cost-effective solution for your filtration needs.

CUSTOMIZED SOLUTIONS

We offer customized solutions to meet your specific requirements, ensuring optimal performance and efficiency.

BAG TO CAGE FITMENT

The correct compatibility between the filter bag and cage is essential for efficient dust collector performance and extended bag life. ANDRITZ ensures a precise fit through meticulous manufacturing and adaptation to provided specifications or samples, ensuring reliable performance in your filtration system.

EcoTeq™ FILTER CAGES

ANDRITZ offers a wide range of cages in various designs and materials to meet different industrial requirements:

- Galvanized/pre-galvanized
- Stainless steel 304/316
- Cataphoresis
- Mild steel

SERVICED BY PEOPLE

Our experienced regional service teams are there to guide or execute your needs regarding all aspects for your Fabric Filters.

It is more than a BAG...

We help our customers reduce emissions, improve efficiency, and meet their environmental and operational goals by offering innovative, cost-effective solutions.

BENEFIT FROM OUR EXPERIENCE

With more than 2,000 installations and 4 million filter bags in operation worldwide, we have gained a thorough understanding of the process that enables us to provide customized, high-performance solutions that meet strict regulatory requirements and optimize filter performance, ensuring that customers receive reliable, efficient systems that improve overall operational efficiency.

STRICT QUALITY ASSURANCE

ANDRITZ adheres to ISO standards. This ensures that not only our own processes and services meet high-quality benchmarks, but that all our suppliers are held to the same rigorous standards through our global procurement, fostering a reliable and consistent supply chain.

LOCAL PRESENCE, GLOBAL REACH

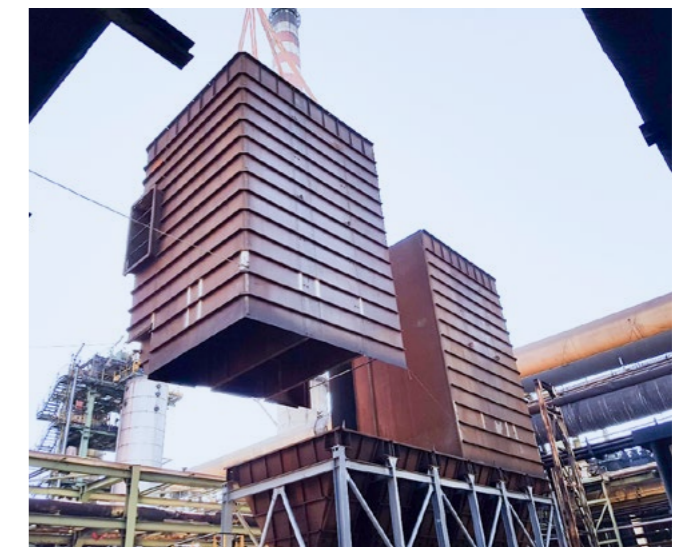

Our local presence and global reach ensure 24/7 support from local teams, while regional centers of excellence deliver the latest technology and innovation. This combination ensures that customers receive fast, responsive service tailored to their specific needs, backed by ANDRITZ's global network and expertise.

FULL SERVICE PARTNER FOR REDUCED COMPLEXITY

As a one-stop shop for fabric filter parts and services, ANDRITZ aims to simplify our customers' operations and reduce the complexity of managing multiple vendors. This streamlined approach can improve inventory control, minimize downtime, and ensure consistent product quality, saving our customers time and resources.

UPGRADES AND RETROFIT SOLUTIONS

ANDRITZ offers support for routine upgrades as well as customized retrofits to meet unique system requirements or improve performance. From evaluation of your current filter system to customized design and engineering support, we help our customers improve the performance, efficiency, and lifespan of existing fabric filter systems.

COMPREHENSIVE SERVICE SOLUTIONS

- Field services (inspection, troubleshooting, commissioning and training)
- Spare parts & wear parts (OEM and other OEMs)
- Service Agreements
- Service Centers (bag analysis, performance analysis or optimization, own laboratories...)

CLEAN AIR FOR A BETTER PLANET

We provide tailor-made environmental solutions focused on reducing emissions and improving performance and efficiency, helping you meet changing market conditions and comply with your asset strategies. Our offering covers the entire flue gas line to control particulate matter, SO_x and other acid gases, Hg and heavy metals, VOCs/HAPs, NO_x, and CO₂ emissions.

With our broad portfolio of best-available technologies for various industrial processes, combined with innovative engineering and strong project execution, ANDRITZ is the ideal partner to help you meet stringent emission regulations. Regional proximity for service activities further ensures optimal operation and superior lifecycle performance of your key equipment and auxiliary components.
