

## teaser - teaser-cutout

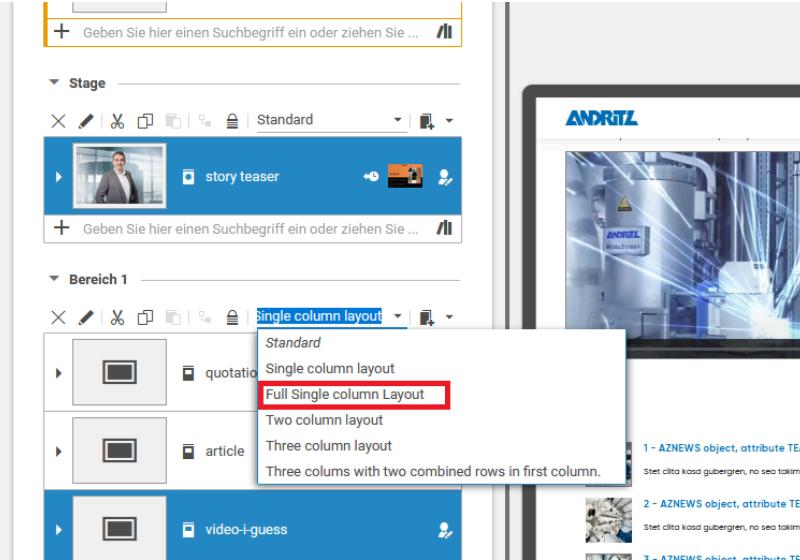

**Headline-4 - Lorem ipsum dolor sit amet**

The Metris Smart Service team, part of the Digital Expansion area in Group Information Technology, partners with the business areas to jointly assess new ideas and requirements, draw up concepts or entire business models, and execute projects. The goal is to create digital solutions that complement the sales portfolio in both capital and service business, offer the customer attractive added value, and enable ANDRITZ to strengthen and expand the customer relationship in the long term. Assisting in the development of digital solutions that will make internal processes more efficient is another goal of Metris Smart Service. The team, enthusiastic about the enormous potential of digitalization, customer oriented, and with the necessary technical and commercial background, aims to break new ground together with the business areas.

## Create a teaser-cutout
