

Nonwoven
& Textile

FOR THE CHANGE

DRIVING THE GREEN TRANSITION AND
CREATING VALUE FOR YEARS TO COME

ANDRITZ

Driving the green transition

Sustainability is a serious responsibility for the entire nonwoven and textile supply chain, and will continue to be so for the years and decades to come. This is why it is an essential part of our business strategy and corporate culture. We focus on topics and targets where we can make the greatest impact for a better future, for a greener planet, for the change.

DRY MOLDED FIBER PROCESS
Revolution in sustainable packaging by converting cellulose fibers into eco-friendly products.

PROCESSES FOR BIO-BASED ABSORBENT HYGIENE PRODUCTS
Environmentally sustainable diapers and napkins made from over 90% bio-based materials and 100% man-made cellulosic-fiber spunlace nonwovens.

SUSTAINABLE WIPES TECHNOLOGIES
Full expertise in sustainable wipes using advanced processes like airlaid, Airlace™, spunlace, and Wetlace™.

BAST FIBER PROCESSING
Customized solutions for processing bast straw, like hemp, flax, and jute, which are vital to the green transition due to their lower carbon footprint and zero-waste properties.

DIAPER RECYCLING SOLUTION
Post-industrial diaper recycling for SAP, fluff pulp, and other components of Absorbent Hygiene Products (AHPs).

TEXTILE SORTING AND RECYCLING PROCESS
Circular economy in textile fibers, offering a full suite from textile sorting and fiber preparation to mechanical and chemical recycling and combined processes.

AIRLAID TECHNOLOGY
Comprehensive know-how in airlaid technology using short fibers, like pulp or blends of different sustainable fiber types.

RESOURCE EFFICIENCY
Movement towards resource-efficient production, focusing on energy and fiber reduction while maintaining product quality.

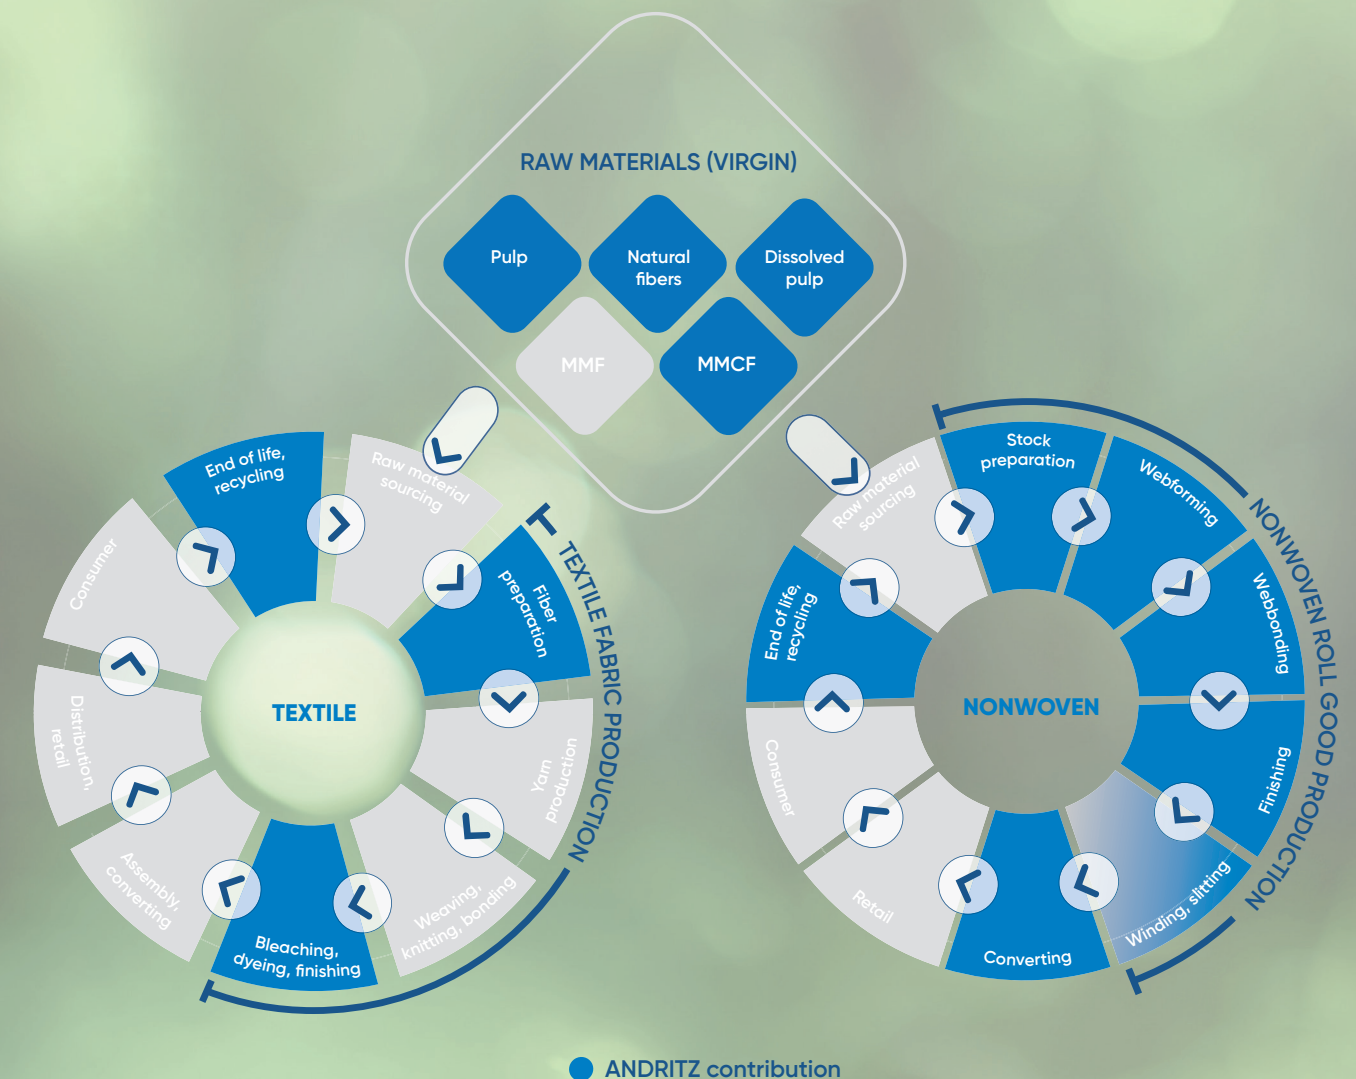

TECHNOLOGIES FOR NATURAL AND RECYCLED FIBERS
Complete lines, like airlay, needlepunch, spunlace or Wetlace™ lines, to process natural and recycled fibers.

ANDRITZ DIGITAL SOLUTIONS
The Metris suite optimizes production processes, enhances plant efficiency, and ensures top product quality in response to customer demands.

Creating value

Propelled onward by our expertise, innovations, and strong commitment to our industry, we are dedicated to customer centricity and strive for integrated, sustainable and resilient value creation. The ANDRITZ Nonwoven & Textile EcoSystem integrates several key stages, each vital to create growth that matters.
