

## PRESS RELEASE

# ANDRITZ to supply a complete production line for flushable wipes to Göliplik, Türkiye

**GRAZ, APRIL 28, 2025.** International technology group ANDRITZ has received an order from Turkish yarn manufacturer Göliplik Şeremet Tekstil Sanayi ve Ticaret A.Ş. to deliver a complete Wetlace™ line to produce nonwovens for sustainable, flushable wipes. This investment underlines Göliplik's commitment to sustainable products and expands its business.

The new production line will enable Göliplik to enter the nonwovens market with high-quality roll goods for flushable wipes. Made from natural, biodegradable fibers, these wipes have excellent tensile strength and dissolve quickly in sewage systems. This new business activity is fully in line with Göliplik's sustainability vision.

The state-of-the-art neXline wetlace line features advanced technology including stock preparation, approach flow system, wetlaid forming, hydroentanglement, and drying. Start-up is scheduled for the first half of 2027.

Erdogan Seremet, owner and president of Göliplik said: *"By investing in this new production line for flushable wipes, we are entering the promising nonwovens market. With ANDRITZ as a leading technology supplier at our side, we are convinced that we can successfully expand our business, benefiting from ANDRITZ's expertise and continuous developments."*

Göliplik Şeremet Tekstil Sanayi ve Ticaret A.Ş. is a leading manufacturer of yarns. Founded in 1987 in Bursa, the company operates four facilities producing a wide range of blended yarns.

## **ANDRITZ GROUP**

International technology group ANDRITZ provides advanced plants, equipment, services, and digital solutions for a wide range of industries, including pulp and paper, metals, hydropower, environmental, and others. Founded in 1852 and headquartered in Austria, the publicly listed group employs about 30,000 people at 280 locations in over 80 countries.

As a global leader in technology and innovation, ANDRITZ is committed to fostering progress that benefits customers, partners, employees, society, and the environment. The company's growth is driven by sustainable solutions enabling the green transition, advanced digitalization for highest industrial performance, and comprehensive services that maximize the value of customers' plants over their entire life cycle. ANDRITZ. FOR GROWTH THAT MATTERS.

## **ANDRITZ PULP & PAPER**

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation.

The product portfolio also includes boilers for power generation, various nonwoven technologies, and panelboard (MDF) production systems. With waste-to-value recycling, shredding and energy solutions, waste and by-product streams from production are converted into valuable secondary raw materials as well as into sustainable resources for energy generation. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
