

A large industrial pulper rotor is being machined by a large circular saw blade. Sparks are flying from the cutting point. A worker in a blue uniform is visible in the background, operating the machine.

BEST PERFORMANCE AND AVAILABILITY

**ANDRITZ Service Center in Levice
for pulper rotors and screen plates**

ANDRITZ

The challenge

Best performance and highest plant availability

TOP-QUALITY SERVICE AT COMPETITIVE PRICES

The main targets in the pulp and paper industry are: efficient production, maintenance activities that are as simple as possible, and continuous reductions in operating costs.

This can only be achieved with the correct technical specifications, high-performance materials, the best manufacturing and repair procedures, and the know-how of a complete stock preparation line supplier.

The ANDRITZ solution

ANDRITZ service center in Levice

ANDRITZ offers upgrades to pulpers from many OEMs to increase capacity and reduce energy consumption. Years of experience designing and manufacturing

stock preparation equipment enable ANDRITZ to provide a wide range of services for pulping and the surrounding processes.

Pulper rotor repair of all kinds in the Levice service center

This includes dedicated machines and procedures as well as specialized personnel for this kind of equipment.

WORKSHOP ADVANTAGES

- Service-oriented workshop
- Set-up designed for high quality and fast, efficient working

CUSTOMIZED SOLUTIONS AND UPGRADES

- A repair can also include:
- power consumption adjustments
 - maintenance improvements
 - increased lifetime

ANDRITZ service center

Focus on repairs to all types of rotors and screen plates independent of the OEM

Rotors before and after repair

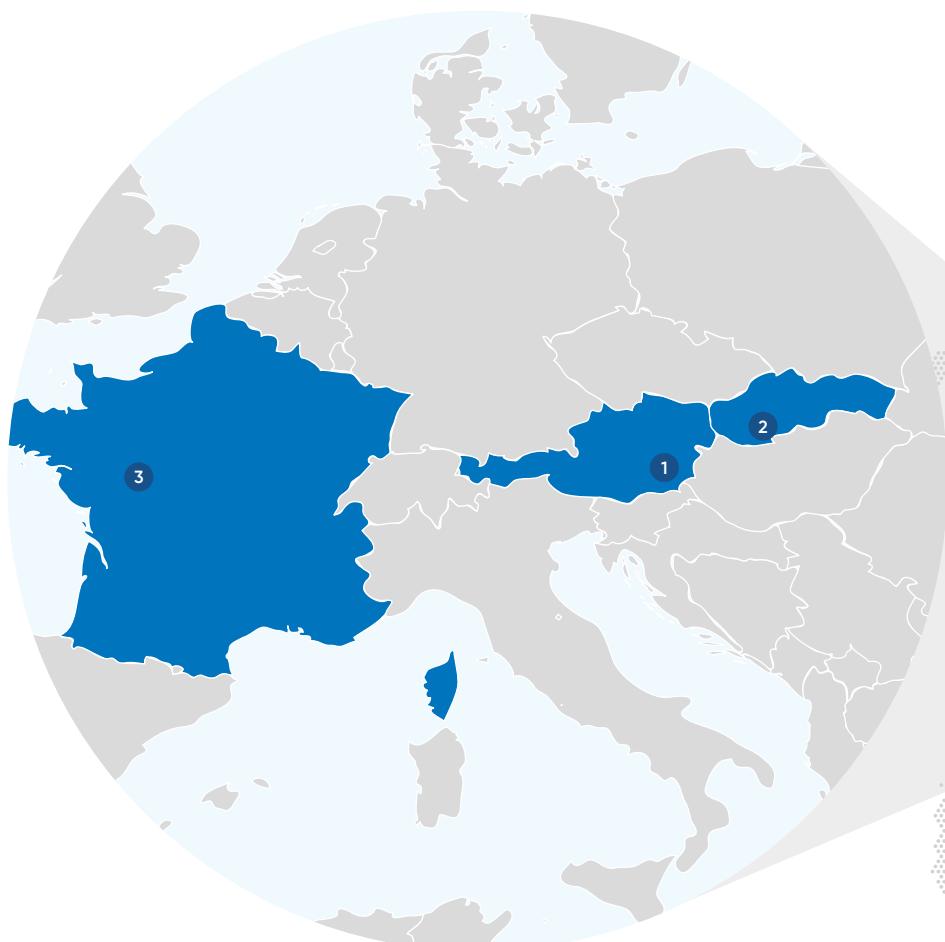

When needed, we offer customized and innovative repairs utilizing our latest product/process developments for improved service life. ANDRITZ is a process and technological partner for the customer and not just a supplier of parts. We will be happy to take up your challenges!
