

## PRESS RELEASE

# ANDRITZ successfully starts up the ninth shoe press for Lee & Man Paper, Malaysia

*GRAZ, MAY 6, 2025.* International technology group ANDRITZ has successfully started up another *PrimePress X* shoe press for Lee & Man Paper Manufacturing Ltd. at its Best Eternity Recycle Technology mill in Banting, Malaysia. This installation marks the ninth shoe press delivered to Lee & Man Paper by ANDRITZ and the sixth *PrimePress X* shoe press installed in Malaysia, further strengthening the close and trustful cooperation between the two companies.

The *PrimePress X* shoe press, designed for 1,250 N/mm, is integrated into the PM26 containerboard machine, which operates at a speed of up to 1,000 m/min and produces high-quality testliner with a basis weight ranging from 70 to 160 gsm. The shoe press features an ANDRITZ *PrimeRoll X* and a *PrimeRoll HV-Smart* anti-deflection roll, along with an impulse shoe press belt.

The successful startup of this shoe press will lead to significant energy savings, improved machine runnability, especially at lower basis weights, and enhanced final paper strength properties. This achievement underscores ANDRITZ's commitment to providing innovative and efficient solutions that help customers optimize their production processes and achieve greater sustainability.

Mr. Chen Liming, Head of Projects, Lee & Man Paper Manufacturing, says: *"We are thrilled with the successful startup of the PrimePress X shoe press as it not only enhances our production capabilities but also underscores the strong and trustful partnership we have with ANDRITZ."*

With this latest installation, ANDRITZ further strengthens its position as a leading supplier of innovative and sustainable technology for paper manufacturers in Malaysia.

Established in 1994, Lee & Man Paper produces linerboards and corrugating medium for various industrial packaging purposes. The group operates five paper mills and one pulp mill in China as well as several production facilities in Vietnam, Malaysia, and other countries.

– End –

The ninth ANDRITZ *PrimePress* X shoe press has successfully started up at Lee & Man Paper, Malaysia.

## **ANDRITZ GROUP**

International technology group ANDRITZ provides advanced plants, equipment, services, and digital solutions for a wide range of industries, including pulp and paper, metals, hydropower, environmental, and others. Founded in 1852 and headquartered in Austria, the publicly listed group employs about 30,000 people at 280 locations in over 80 countries.

As a global leader in technology and innovation, ANDRITZ is committed to fostering progress that benefits customers, partners, employees, society, and the environment. The company's growth is driven by sustainable solutions enabling the green transition, advanced digitalization for highest industrial performance, and comprehensive services that maximize the value of customers' plants over their entire life cycle. ANDRITZ. FOR GROWTH THAT MATTERS.

## **ANDRITZ PULP & PAPER**

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board, and tissue. The technologies and services focus on increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation.

The product portfolio also includes boilers for power generation, various nonwoven technologies, and panelboard (MDF) production systems. With waste-to-value recycling, shredding, and energy solutions, waste and by-product streams from production are converted into valuable secondary raw materials as well as into sustainable resources for energy generation. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
