

PRESS RELEASE

Minhan Paper, Vietnam, successfully starts up new OCC line supplied by ANDRITZ

GRAZ, AUGUST 6, 2025. Minhan Paper Joint Stock Company has successfully started up a new OCC (Old Corrugated Containers) line supplied by ANDRITZ to its mill in Van Lam, Hung Yen Province, Vietnam. This start-up strengthens Minhan's position in the growing Vietnamese packaging market.

The line has a design capacity of 700 t/d and processes a mix of American OCC and Local OCC to produce high-quality testliner and corrugated medium paper. It includes a full stock preparation system from pulping to approach flow, featuring advanced fiber recovery, broke handling, and reject treatment, which comprises:

- a *PrimeSolve* LC system with advanced set-up and the latest detrasher rotor design for highly efficient reject removal and excellent slushing performance
- a *PrimeScreen* X with state-of-the-art rotor design, enabling high screening efficiency, low power consumption, and superior stock quality with low fiber loss.

Mr. Vu Hoang Viet, Director of Minhan Paper, says: *"This OCC line represents a key addition to our production capabilities. We appreciate the expertise and support provided by ANDRITZ throughout the project and are confident that it will contribute to our long-term growth and environmental goals."*

Minhan Paper, founded in 2020, specializes in the production of corrugated paper, paperboard, and containerboard. This successful start-up further reinforces ANDRITZ's strong presence in Southeast Asia's fiber industry.

ANDRITZ GROUP

International technology group ANDRITZ provides advanced plants, equipment, services, and digital solutions for a wide range of industries, including pulp and paper, metals, hydropower, environmental, and others. Founded in 1852 and headquartered in Austria, the publicly listed group employs about 30,000 people at 280 locations in over 80 countries.

As a global leader in technology and innovation, ANDRITZ is committed to fostering progress that benefits customers, partners, employees, society, and the environment. The company's growth is driven by sustainable solutions enabling the green transition, advanced digitalization for highest industrial performance, and comprehensive services that maximize the value of customers' plants over their entire life cycle. ANDRITZ. FOR GROWTH THAT MATTERS.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation.

The product portfolio also includes boilers for power generation, various nonwoven technologies, and panelboard (MDF) production systems. With waste-to-value recycling, shredding and energy solutions, waste and by-product streams from production are converted into valuable secondary raw materials as well as into sustainable resources for energy generation. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
