ANDRITZ strengthens boiler service business by acquiring Allen-Sherman-Hoff

GRAZ, NOVEMBER 5, 2025. International technology group ANDRITZ has acquired Allen-Sherman-Hoff from US-based Babcock & Wilcox Enterprises, Inc., further strengthening its offering of boiler solutions and related services.

The acquisition supports ANDRITZ's long-term strategy to grow its aftermarket and service business by offering customers complete lifecycle solutions and support.

Allen-Sherman-Hoff is a recognized leader in ash handling systems, serving power plants, biomass facilities, the pulp and paper, and other industries. The company puts a focus on after-sales support with replacement parts, maintenance services, and system upgrades. With more than a century of experience and a strong reputation for reliability and innovation, the company's solutions are widely used across North America and globally.

Headquartered in Exton, Pennsylvania, USA, Allen-Sherman-Hoff achieves annual revenues in the range of 30 million euros.

"We are excited to welcome Allen-Sherman-Hoff to the ANDRITZ family," says Henrik Wikstedt, Senior Vice President, Recovery & Power Service division. "Their expertise in material handling complements our existing portfolio and enhances our ability to deliver integrated solutions and services for cleaner and more efficient boiler operations."

ANDRITZ GROUP

International technology group ANDRITZ provides advanced plants, equipment, services, and digital solutions for a wide range of industries, including pulp and paper, metals, hydropower, environmental, and others. Founded in 1852 and headquartered in Austria, the publicly listed group employs about 30,000 people at 280 locations in over 80 countries.

As a global leader in technology and innovation, ANDRITZ is committed to fostering progress that benefits customers, partners, employees, society, and the environment. The company's growth is driven by sustainable solutions enabling the green transition, advanced digitalization for highest industrial performance, and comprehensive services that maximize the value of customers' plants over their entire life cycle. ANDRITZ. FOR GROWTH THAT MATTERS.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation.

The product portfolio also includes boilers for power generation, various nonwoven technologies, and panelboard (MDF) production systems. With waste-to-value recycling, shredding and energy solutions, waste and by-product streams from production are converted into valuable secondary raw materials as well as into sustainable resources for energy generation. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
