

PRESS RELEASE

Göliplik prepares to enter the nonwovens market with production line from ANDRITZ

GRAZ, JUNE 16, 2026. Turkish yarn manufacturer Göliplik Şeremet Tekstil Sanayi ve Ticaret A.Ş. is preparing to enter the nonwovens market for sustainable wipes with a Wetlace™ production line from ANDRITZ. Erection and commissioning of the line will start in the last quarter of 2026.

ANDRITZ is supplying a complete neXline wetlace™ line that will produce high-quality roll goods for bio-based, flushable wipes. The project is being implemented in close cooperation between both companies and is progressing according to schedule.

Erdogan Seremet, owner and president of Göliplik, said: *“With the installation of the ANDRITZ line, we are taking a decisive step into the nonwovens market. Our strong collaboration – built on trust and shared sustainability goals – demonstrates how a technology partnership can become a growth catalyst. As the project advances toward start-up, our teams are laying the foundation for a new chapter in sustainable wipes production in Türkiye.”*

Tobias Schäfer, Vice President ANDRITZ Nonwoven & Textile added: *“Throughout the project, we have worked closely together, with a strong focus on structured project management, transparent communication, and coordinated engineering activities. This joint approach has enabled steady progress across all project phases to date.”*

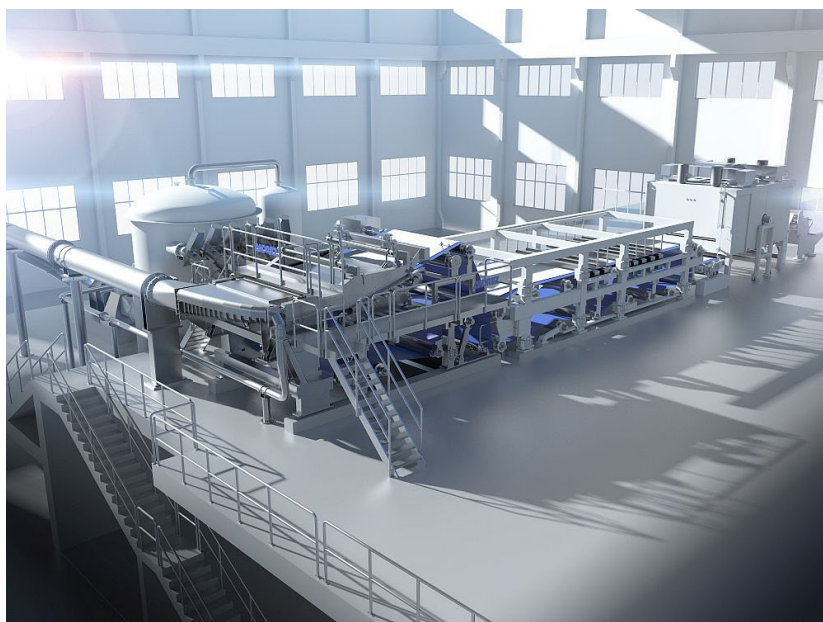

As part of the project, Göliplik's operating team will be welcomed to ANDRITZ's dedicated Nonwovens location in France for training to support knowledge transfer and preparation for commissioning. Additional training will also be provided on site to ensure a smooth transition into operation.

The collaboration reflects the shared commitment of Göliplik and ANDRITZ to the reliable implementation of advanced nonwoven technologies for a sustainable future.

Göliplik Şeremet Tekstil Sanayi ve Ticaret A.Ş. is a leading manufacturer of yarns. Founded in 1987 in Bursa, the company operates four facilities producing a wide range of blended yarns.

ANDRITZ GROUP

International technology group ANDRITZ provides advanced plants, equipment, services, and digital solutions for a wide range of industries, including pulp and paper, metals, hydropower, environmental, and others. Founded in 1852 and headquartered in Austria, the publicly listed group employs about 30,000 people at 280 locations in over 80 countries.

As a global leader in technology and innovation, ANDRITZ is committed to fostering progress that benefits customers, partners, employees, society, and the environment. The company's growth is driven by sustainable solutions enabling the green transition, advanced digitalization for highest industrial performance, and comprehensive services that maximize the value of customers' plants over their entire life cycle. ANDRITZ. FOR GROWTH THAT MATTERS.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation.

The product portfolio also includes boilers for power generation, various nonwoven technologies, and panelboard (MDF) production systems. With waste-to-value recycling, shredding and energy solutions, waste and by-product streams from production are converted into valuable secondary raw materials as well as into sustainable resources for energy generation. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
