

PRESS RELEASE

Greenply orders second pressurized refining system from ANDRITZ

GRAZ, AUGUST 11, 2026. Greenply Speciality Panels Pvt. Ltd. has placed a repeat order with ANDRITZ for a pressurized refining system for its medium-density fiberboard (MDF) production facility in Vadodara, Gujarat, India.

The value of the order will not be disclosed. It is included in ANDRITZ's order intake for the second quarter of 2026.

The scope of supply comprises a complete pressurized refining system with a capacity of 25 t/h. The system features the ANDRITZ C-Feeder concept and a plug screw feeder equipped with AdvaProtect segments for enhanced wear resistance and operational reliability. In addition, ANDRITZ will supply an S 1056 refiner and a pressurized digester to further improve refining efficiency.

Gourav Khandelwal, Chief Operating Officer at Greenply Speciality Panels, said: *“The decision to order a second refining system from ANDRITZ reflects our positive experience with the company’s technology and support. The new system will help us achieve our goals of stable production, high product quality, and efficient operation at our Vadodara facility.”*

Greenply Speciality Panels Pvt. Ltd., part of Greenply Industries, is a leading Indian manufacturer of wood-based panel products, including MDF. The company focuses on high-quality, value-added products and operates modern production facilities serving domestic and international markets.

ANDRITZ GROUP

International technology group ANDRITZ provides advanced plants, equipment, services, and digital solutions for a wide range of industries, including pulp and paper, metals, hydropower, environmental, and others. Founded in 1852 and headquartered in Austria, the publicly listed group employs about 30,000 people at 280 locations in over 80 countries.

As a global leader in technology and innovation, ANDRITZ is committed to fostering progress that benefits customers, partners, employees, society, and the environment. The company's growth is driven by sustainable solutions enabling the green transition, advanced digitalization for highest industrial performance, and comprehensive services that maximize the value of customers' plants over their entire life cycle. ANDRITZ. FOR GROWTH THAT MATTERS.

ANDRITZ PULP & PAPER

ANDRITZ Pulp & Paper provides sustainable technology, automation, and service solutions for the production of all types of pulp, paper, board and tissue. The technologies and services focus on increased production efficiency, lower overall operating costs as well as innovative decarbonization strategies and autonomous plant operation.

The product portfolio also includes boilers for power generation, various nonwoven technologies, and panelboard (MDF) production systems. With waste-to-value recycling, shredding and energy solutions, waste and by-product streams from production are converted into valuable secondary raw materials as well as into sustainable resources for energy generation. State-of-the-art IIoT technologies as part of Metris digitalization solutions complete the comprehensive product offering.
